Two Sections—Section Two

Engineering News-Record

A Consolidation of Engineering News and Engineering Record

A JOURNAL OF CIVIL ENGINEERING AND CONTRACTING

ISSUED WEEKLY

VOLUME 99

July 1 to December 31, 1927

McGRAW-HILL PUBLISHING COMPANY, INC.
TENTH AVENUE AT 36TH STREET
NEW YORK

INDEX TO ENGINEERING NEWS-RECORD

VOLUME 99—July 1 to December 31, 1927

		Page
July 7	1 to	44
July 14	45 to	84
July 21	85 to	124
July 28	125 to	164
Aug. 4	165 to	208
Aug. 11	209 to	248
Aug. 18	249 to	288
Aug. 25	289 to	328
Sept. 1	329 to	372
Sept. 8	373 to	412
Sept. 15	413 to	452
Sept. 22	453 to	492
Sept. 29	493 to	532
Oct. 6	533 to	576
Oct. 13	577 to	616
Oct. 20	617 to	656
Oct. 27	657 to	696
Nov. 3	697 to	740
Nov. 10	741 to	780
Nov. 17	781 to	820
Nov. 24	821 to	860
Dec. 1	861 to	904
Dec. 8	905 to	944
Dec. 15	945 to	984
Dec. 22	985 to	1026
Dec. 29	1027 to	1064

A

ACCIDENTS AND ACCIDENT PREVENTION
- Cement industry, safety campaign progress n488
- Crossing accidents, responsibility status broadly changed by decision of Supreme Court that man on highway must stop e821
- Highway bridge approach hazards e657
- Manual of Accident Prevention of Associated General Contractors n564
- National Safety Congress, Chicago meeting discusses safety e577
- New York University offers accident-prevention course n609
- Pittsburgh, Pa. gasholder explosion Wrecks wide area ..... n•813
  - Not explained e822
- Protecting men doing railway improvement work under traffic j931
- Railroad crossing accidents are victims' fault, ruling of U. S. Supreme Court, Goodman case n774
- Safety appliances exhibited at Chicago meeting of National Safety Congress.. n613
- Safety Congress discusses contractors' safety measures j683
- Wood cover for penstock protects men at work ..... j•1014
- (See also Highway traffic accidents, Railway accidents, etc.)

Acoustical hotels, "D.S.G." 1 934

AERONAUTICS
- Airmail routes in U. S. 926
- Airports, municipal, site requirements as applied by New York chief engineer.. •22
- German airplane disaster e494
- Germany, air travel. E. J. Mehren .... •172
- Lindbergh's Detroit to New York rapid flight, annihilating space e781
- Mapping by airplane. (see Maps and mapping.)
- Progress and disasters—flying not a sporting event e289
- Secretary Hoover's fact-finding committee recommends sites for airports in New York City area n1058
- Surveys by airplane. (See Surveys and surveying.)
- Triumphs by American fliers in ocean flights e1
- Western Air Express to get aid from Guggenheim funds n611

Akron, Ohio, sewage-works construction ..... e783, •784

Alkali land. (See Irrigation; Land reclamation.)

Allegheny County, Pa., highway system plan ..... •580

American Association of State Highway Officials:
- Denver meeting 594
- Standardization is subject for conference n280

AMERICAN CONSTRUCTION COUNCIL
- Annual convention announced 485
- Annual convention program announced..n854

AMERICAN ENGINEERING COUNCIL
- Criticizes withdrawal of Building Trades Dept. of A. F. of L. E. Haupt 1 934
- Public works bill:
  - Drafted, puts public works under Interior Department n687
  - To be revised n853

American Engineering Standards Committee:
- Reorganization as American Standards Association is under consideration ...e291

American Institute of Steel Construction:
- Annual meeting at Pinehurst and discussions e697, 716

American Institute of Steel Construction:
- Cheney, O. H., banker, talks on publicity for steel and quality rather than volume e697

American Public Health Association, annual meeting at Cincinnati n446, n687

American Railway Bridge and Building Association:
- Protecting railway improvement work under traffic, abstract of a committee report j931

AMERICAN ROAD BUILDERS' ASSOCIATION
- County Highway Officials Association: Organized as division of A.R.B.A...el, n29
- County Highway Officials Division: Meeting announced n770
- Effort for better technical papers and discussions at convention e1028
- Nominations for 1928 officers n727
- Prize competition to promote traffic safety n445
- Road Show:
  - Cleveland convention, Jan. 9-14, unusual interest n1059
  - Hotel reservations for 1928 convention and road show n160
  - Progress in handling attendance n894
- Safety in highway traffic, educational campaign n525

American Society for Municipal Improvements:
- Annual meeting at Dallas n853

American Society for Steel Treating, meeting announced n726

AMERICAN SOCIETY FOR TESTING MATERIALS
- Abstracts of papers on materials, test methods and instruments, J. A. Capp and O. S. Peters ..... n•94
- Attending members and guests at annual convention at French Lick..... n•30
- Fatigue of metals papers at annual meeting ..... e86, a•94

American Society of Agricultural Engineers:
- Engineers to meet n852
- Farm aid on engineering principles proposed at annual meeting e405

AMERICAN SOCIETY OF CIVIL ENGINEERS
- Age requirements, compared with those of British Institute. H. J. Ajwani ...1 850
- Amendment on admissions, protest against age extension. L. D. Rights 1 404
- Board of Direction meets at Denver ... n75
- Columbus meeting:
  - Reviews chiefly Mississippi River flood problem with address by A. E. Morgan, criticizing Mississippi River Commission e618, 636, 641
- Constructive activity shown..... e617
- News report n648
- Dam and spillway toe erosion discussed at Columbus meeting e617
- Denver meeting, irrigation chief topic.. 104
- Mississippi River problem:
  - Discussion of problem and plan to aid, features of Columbus meeting e618, 636, 641, n648
  - Levees only not favored for abnormal floods, spillways needed. F. B. Maltby 1 686
- New York City engineers' salary inequities discussed by Secretary Seabury n608
- Obligations to national problems seen in Columbus meeting discussions e618
- Presidential nominee, Lincoln Bush n648
- Stevens, J. F., address on Panama Canal e125
- Technical divisions nonimate executive committees n726

American Water Works Association:
- California section meeting n650
- Pacific Northwest section organized.... n979

American Welding Society:
- Fall program outlined n242

Anchor, steel, for masonry and brick facing (Dovetail Anchor Slot Co.) ...n•326

AQUEDUCTS
- Los Angeles water supply aqueduct, Owens Valley:
  - Dynamiting, recent, does little damage n156
  - Insurance covering damages by dynamiting e413
- San Diego, Calif., pipe line laid in long sections ..... j•603
- Wanaque aqueduct:
  - Confusion increases e249
  - Controversy at temporary halt n75
  - Johnson dismissed from work n239
  - Johnson's enlarged plan adopted n280
  - Municipalities protest appointments of Snow n30
  - Snow, F. Herbert, report on controversy e251, 274
- Winnipeg aqueduct, flow tests, discussion and reply. A. L. Collins and J. H. Grant 1 27

ARCHES
- Height of arches:
  - Dog Creek bridge arch 235 ft. high under construction ..... n•727
- Skew arch reactions measured by reciprocal method (studies by Prof. G. E. Beggs) ..... •106

ASPHALT
- Coating of asphalt for concrete in pipe and pavement (Asphalto-Concrete Co.) n244
- Equipment to replace hand tools in surfacing asphalt. California Highway Dept. experiments ..... •869
- Melting kettle (Littleford Brothers Co.) n•447
- New method of interlocking base and wearing surface of asphalt pavement (Interlock Asphalt Paving Corporation) ..... n•1024
- Preserving road investment by asphalt surfacing, discussed by Asphalt Road Conference; abstracts of papers..... n923

Asphalt Paving Conference, Annual meeting (6th), Atlanta, Nov. 28-Dec. 3 ..... n938

Assessments for benefits. (See Municipal improvements; Pavements and paving, etc.)

Associated Business Papers editorial award to S. A. Hale of *Coal Age*..... n689

ASSOCIATED GENERAL CONTRACTORS
- Decry unions' withdrawal from National Board of Jurisdictional Awards n938
- Exhibit, construction, for January meeting n198
- Manual of accident prevention in construction planned n564
- Safety manual e741

Association of City Engineers of New York State organized n484, e534, n561

B

Baker, M. N., honored on completing 40 years with *Engineering News-Record* n977

Baltimore, Md.:
- Dropping of engineering heads and appointment of new—the axe falls e535, n561
- Engineering department changes. "Expert is lonesome"—Baltimore Sun ...e577

BEAMS

Concrete:
- Web stress investigation at Illinois Engineering Experiment Station 431

Belgium:
- Railways to try steel ties 880

BINS

Concrete storage bins (Besser Sales Co.) n•818

Blanchard, A. H., resigns highway engineering post at Michigan n283

Bland, J. C., death ..... n•320

BLASTING

(See also Explosives.)

Earth vibrations in blasting measured .. 347

Blueprints:
- Electric blueprint device. C. A. Martin j•479
- Filing blueprints for accessibility. R. E. Reed ..... j•153
- Filing cabinet for large blueprints (Hamilton Mfg. Co.) ..... n•856
- Tracings made from old blueprints by special process (J. R. Shays, Jr.) n567

BONDS
- New York subway, collateral replaces surety bond n194
- State and municipal, for public improvements, increase since 1918..... n983

Book cost (See Economies; Valuation.)

BOOK REVIEWS
- Activated sludge process—English practice (A. J. Martin) 111
- Airports and airways (Lieut. Donald Duke) 970
- American Library Association catalog .. 441
- Architect in history (M. S. Briggs) 806
- Boiler feed water purification (S. T. Powell), reviewed by R. S. Weston ... 806
- Bridge architecture, bridges of the world (W. J. Watson) 440
- Bridge over Delaware River, Philadelphia to Camden (report of board of engineers of commission) 277
- Business cycles and business measurements (Carl Snyder)..... 971
- Chronicles of a contractor, autobiography of George Paulding (ed. by David Buchan)..... 972
- City health administration (C. E. McCombs) 441
- Concrete building construction (T. Crane), reviewed by A. R. Lord 439
- Conquest of the air: historical survey (C. L. M. Brown) 278
- Descriptive geometry (C. H. Schumann) 278
- Deutsche zement industrie (Dr. ing. Riepert and others), reviewed by P. H. Bates 969
- Drafting for engineers (C. L. Svensen).. 278
- Economic problems of modern life (S. H. Patterson) 440
- Electric elevators, design, construction, operation, maintenance (F. A. Annett) 440
- Engineering problems manual (F. C. Dana and E. H. Willmarth) 808
- Estimating building costs. (F. E. Barnes) 279
- Excavation and embankment, methods and plant (C. H. Paul and C. S. Bennett) 807
- Explosives industry in America, history (A. P. Van Gelder and H. Schlatter).. 440
- Field astronomy for engineers and surveyors (D. Clark) 278
- Geologie im Ingenieur-Baufach (W. Kranz) 112
- Greensboro, N. C., report of geodetic, topographic and block survey (R. H. Randall & Co.) 441

•Illustrated; a, abstracts; e, editorials; j, job and office; l, letter; n, news

Eng. Lib.
Wash

Handbook for highway engineers (W. G. Harger) 808
History of socialistic thought (H. W. Laidler) 646
Hydraulics (E. W. Schoder), reviewed by J. H. Gregory 111
Hydrology of the Great Lakes (R. E. Horton and C. E. Grunsky), reviewed by H. K. Barrows..... 967
Indeterminate permit-report for Public Ownership League (D. F. Wilcox).. 807
Lamme, Benjamin Garner, electrical engineer, autobiography 439
Legal aspects of zoning (N. F. Baker). 112
Lubrication and lubricants (L. Archbutt and R. M. Deeley) 441
Management and methods in concrete highway construction (J. L. Harrison) 278, 972
Manual of endurance of metals under repeated stress (H. F. Moore)..... 112
Mathematics of engineering (R. E. Rott), reviewed by G. Paaswell 807
Mechanics of materials (G. Young and H. E. Baxter) 808
Methods and plant for excavation and embankment (C. H. Paul and C. S. Bennett) 807
Microscopy of drinking water (G. C. Whipple, revised by G. M. Fair and M. C. Whipple), reviewed by A. Wolman) 971
Municipal and rural sanitation (V. M. Ehlers and E. W. Steel)..... 969
Municipal year book (British) for 1927 278
Nomograms for hydraulics, and other calculations in irrigation work (Panjab Irrigation Department) 277
Outline of careers, by 38 eminent Americans (ed. by E. L. Bernays)... 972
Principles of real estate appraising (J. A. Zangerle) 808
Science of roadmaking (British) (J. W. Green and C. N. Ridley) 442
Sewage-works-India (E. C. Temple)... 277
Standard construction methods (G. Underwood) 277
Steam and gas turbines (A. Stodola, trans. from German by L. C. Loewenstein) 644
Stream gaging (W. A. Liddell), reviewed by R. E. Horton..... 644
Water channels (George Higgins), reviewed by R. E. Horton)..... 970
Your money's worth (Stuart Chase and F. J. Schlink) 644
Boston, Mass.:
Water supply tunnel, Wachusett-Coldbrook, bids asked n728

BRICKS AND BRICKLAYING

Fire resistance tests of brick walls, over several years, at Bureau of Standards 628
Mixer for mortar (Marsh-Capron Co.) ..n*450
Reclaiming machine for brick (Rotor Air Tool Co.) n*284
Unloading conveyor (George Haiss Mfg. Co.) n*285
Walls of brick, hollow and solid, data for building codes 353

BRIDGE ABUTMENTS AND PIERS

Piers:
African railway bridge, deep piers sunk by open dredging *307
Fenders for piers in navigable channels, as on Carquinez Strait bridge e782, *794
Flushing Creek bascule bridge piers built with floating caissons. E. I. Judd *48

BRIDGE ACCIDENTS AND FAILURES

Canadian railway bridge in Alberta, girder falls, kills four n196
Danville, Va., arch ring of bridge collapses while being poured n770
Fires. (See Bridge fires).
Mississippi River bridge at Louisiana, Mo., span falls during erection.....n*523
Pontoon bridge at Burlington, Vt., destroyed through overload n*936

BRIDGE CONSTRUCTION

Arlington Memorial bridge:
Deep steel sheetpile cofferdams e185 C. Carswell *92
Stone work setting. J. M. Robbins ..j*846
Caissons, floating, used in construction of piers of Flushing Creek bascule bridge. E. I. Judd..... *48
Concrete:
Danville, Va., arch ring of bridge collapses while being poured n770
Good building co-ordination on Arthur Kill bridges e741, *744
Mississippi River bridge at Louisiana, Mo., span falls during erection....n*523
Missouri River bridge at Waverly, cantilever erection of long spans. L. J. Sverdrup *591
Steel centering for arch bridges, Ford bridge over Mississippi, St. Paul to Minneapolis, concrete arch bridge, design and construction. M. S. Grytbak *754
Welded bridges, Chicopee Falls railway bridge on Boston & Maine branch, arc-welded n689
Winter construction of road bridges by Michigan highway dept. *914

BRIDGE DESIGN

Air attacks on large bridges should be considered. E. M. Viner.....l 357
Arch:
High Bridge, New York City, reconstruction, five masonry arch spans being replaced by single steel arch, e861, *864
Rigid-frame, solid-section design applied to skew bridges, Bronx River and Hutchinson River parkways, New York. A. G. Hayden.....*867
Bowstring bridge of concrete at Bagneaux, France. W. L. Scott.....*272
Concrete cantilever bridge with flexible expansion bearings, in Wyoming.
Concrete:
J. F. Seiler *298
Fenders for bridge piers, general discussion and design for Carquinez Strait bridge pier e782, *794
Floors of highway bridges over railway track, waterproofing (A.R.B.B.A. paper) a791
Ford bridge over Mississippi, St. Paul to Minneapolis, concrete arch bridge, design and construction. M. S. Grytbak *754
Hudson River, Fort Lee bridge:
Superstructure bids, cables, wire and eyebar, noteworthy competition. e577, 592
Suspension type, on toll basis, design of 3,500-ft. bridge e211, *212
Ice-breaker pier nose:
For Missouri River bridges *354
Railroad rail embedded in pier nose, in Pittsburgh district. J. B. Karcher .....! *522
Lift bridge, direct-hoist, on Rock Island Ry. at De Valls Bluff, Ark. *705
Longview, Wash., bridge plans revised. .n447
Montreal South Shore cantilever bridge under construction *150
Portsmouth, Ohio, suspension bridge over Ohio River, design and construction. D. B. Steinman *620
Waddell, J. A. L., discusses general design of bridge before Western Society of Engineers 643
Bridge fires:
Floor fire wrecks iron bridge, Danville, Va. e86. G. C. Stone.....*103
Ouachita River railway bridge, swing span truss posts buckled in fire, repaired j400
Pittsburgh, Pa., Mount Washington bridge over Castle Shannon, fire in formwork. n*359, e375, "Construction".....l 522
Bridge floors:
Combined reinforcing and armor for bridge floors (Irving Iron Works Co.) n*325
Bridge removal:
Menai Straits suspension bridge may be removed *499
Sixth St. bridge, Pittsburgh, Pa., dismantling top chord and moving span. D. T. Jerman *473

BRIDGE RENEWALS AND REPAIRS

Buckled truss posts in railway bridge over Ouachita River, swing span, repaired j*400
Columbus, Ohio, High St., viaduct of steel to be reinforced by encasement. R. H. Simpson 791
Klamath River arch bridge, repairing defective concrete e331, *336
New York City, High Bridge over Harlem River, reconstruction by replacing five masonry arch spans by single steel arch e861, *864
Providence, R. I., Point St. bridge, foundation problems in enlarging center pier of swing bridge. G. W. Maker..*927
Swing bridge, Rock Island Ry., over Illinois River, pivot casting repaired..j*480
Bridge tests:
Concrete arch bridge over Yadkin River in North Carolina to be tested to destruction n*853

BRIDGES

African railway bridge, open dredging sinks deep piers *309
Arch:
Concrete arch bridge over Yadkin River in North Carolina to be tested to destruction n*853
Danville, Va., arch ring of bridge collapses while being poured n770
Dog Creek, concrete arch, 235 ft., under construction n*727
Steel centering:
Ford Bridge over Mississippi, St. Paul to Minneapolis, concrete arch bridge, decign and construction. M. S. Grytbak *754
Arkansas Highway Commission's right to build toll bridges questioned ...n774
Arlington Memorial Bridge:
Deep steel sheetpile cofferdams. e85, C. Carswell *92
Stone work setting. J. M. Robbins..j*846
Arthur Kill bridges:
Abutments, bids called for.....n321
Building substructures, piers, concreting, reinforcing e741, *744
Four approaches, bids received.....n445
Paving contracts awarded.....n725
Approved n815
Progressing rapidly n282
Bascule:
Flushing Creek bridge, Roosevelt Ave., Long Island, bascule bridge piers built with floating caissons. E. I. Judd *48
Bowstring bridge, of concrete at Bagneux, France. W. L. Scott *272
Bronx River Parkway at Scarsdale and Hutchinson River Parkway at New Rochelle and at Scarsdale, rigid-frame, solid-section design applied to skew bridges. A. G. Hayden *867
California highway bridge inventory 499
Cantilever:
Concrete cantilever bridge with flexible expansion bearings, in Wyoming. J. F. Seiler *293
Missouri River bridge at Waverly, cantilever erection of long spans. L. J. Sverdrup *591
Montreal South Shore cantilever bridge under construction *150
Carquinez Strait bridge:
Fender for midchannel pier.....e782, *794, 1 974
Clearances required by ocean vessels' mast heights. P. K. Schuyler..... 993
Concrete:
Bowstring bridge, of concrete at Bagneux, France. W. L. Scott.....*272
Cantilever concrete bridge with flexible expansion bearings, in Wyoming. J. F. Seiler *298
Danville, Va., arch ring of bridge collapses while being poured.....n770
Dog Creek, concrete arch, 235 ft., under construction n*727
Ford Bridge over Mississippi, St. Paul to Minneapolis, concrete arch bridge, design and construction. M. S. Grytbak *754
Detroit-Windsor toll bridge:
Bonds issued n158
Referendum 8 to 1 for bridge n30
Drawbridges:
Foundation problems in enlarging center pier of swing bridge at Providence. G. W. Maker *927
Flushing Creek bridge, Roosevelt Ave., Long Island, bascule bridge piers built with floating caissons. E. I. Judd... *48
Ford bridge over Mississippi, St. Paul to Minneapolis, concrete arch bridge, design and construction. M. S. Grytbak *754
Fort Lee bridge. (See Bridges, Hudson River.)
France, Bagneux, concrete bowstring bridge. W. L. Scott *272
Grand Lake, Newfoundland, bridge and dam on development for power and paper company. A. B. McEwen.....*128
Great Egg Harbor Bay, N. J., application approved.....n979
Harlem River:
High Bridge, New York City, reconstructing Croton aqueduct High Bridge e861, *864
Hudson River:
Albany-Rensselaer bridge traffic survey and results n561
Fort Lee bridge:
Advancing needs for huge structures e211
Breaking ground ceremony announced n321
Caisson lists in sinking n194
Suspension type, on toll basis, design of 3,500 ft. bridge e211, *212
Wire cable design adapted and cable contract awarded n648
Wire cables lower in estimated cost than eyebars n563
New York City, 57th St. bridge:
War Department hearing set n282
Army engineers hold hearing.....n446
Illinois River bridge of Rock Island Ry.:
Pivot of swing span repaired.....j*480
Personnel on work 679
James and Nansemond Rivers and Chuckatuck Creek in Virginia, Turner Construction Co. gets contracts for three bridges n612
Kansas City free bridge opened.....n158
Kill van Kull bridges:
Bayonne-Port Richmond bridge application to War Department to be made n726
Port Authority fixes location of new bridge n892
Discussed at War Dept. hearing...n*939
Klamath River arch bridge, repairing defective concrete e331, *336
Lift bridges:
Direct-hoist lift bridge, Rock Island railway at DeValls Bluff, Ark.....*705
Longview-Rainier bridge:
Approval by War, Agriculture, and Commerce Departments n816
Longview, Wash., railroad viaduct over highway in service 8 days after pouring concrete j*155
Malibu bridge, concrete plant kept in highway right-of-way. R. Twaddle..j*315
Matangas River, Florida, bridge application to War Departent n611
Menai Straits suspension bridge may be removed *490
Michigan highway dept. constructs some 50 structures during four winters....*915
Mississippi River bridge at Louisiana, Mo., span falls during erection.....n*523
Mississippi River bridges being built at Alton and Cairo, Ill., and Louisiana, Chain of Rocks, and Cape Girardeau, Mo. H. H. Lotter..... 431
Missouri River bridge, at Leavenworth, of Chicago, Great Western Ry., strengthened by welding. W. R. Roff *176
Missouri River bridge at Waverly, cantilever erection of long spans. L. J. Sverdrup *591
Missouri River highway bridges at Williston and Sanish, North Dakota. C. Johnson *426
Montreal South Shore cantilever bridge under construction *150
Mount Hope toll bridge to proceed.....n240
New York City:
57th St. (See Bridges, Hudson River.)

Fort Lee bridge. ((See Bridges, Hudson River.)
Narrows bridge, Brooklyn to Staten Island:
City toll bridge is new idea e533
Fowler, C. E., to apply for franchise n611
Ocean City, N. J., bridge application to War Department n611
Ohio River bridge at Pomeroy, application to War Department n611
Ohio River suspension bridge at Portsmouth, with historical sketch of Ohio Valley bridges. D. B. Steinman.....*620
Scioto River suspension bridge at Portsmouth, failure in 1880. S. P. Baird .....l 812
Ouachita River railway bridge swing span truss posts buckled in fire, repaired j400
Outerbridge crossing. (See Bridges Arthur Kill.)
Peace bridge lighting meets modern requirements (Holophane Glass Co.)..n*410
Philadelphia-Camden bridge:
Traffic in first year e85
Pond River bridge in Delaware, application to War Department n611
Pontoon:
Emergency crossing, Burlington, Vt., destroyed through overload n*936
Port Huron, Mich., international bridge project n156
Portsmouth, Ohio, suspension bridge over Ohio River, design and construction. D. B. Steinman *620
Providence, R. I., Point St. bridge, enlarging center pier. G. W. Maker...*927
Railing:
Why not build better concrete bridge rails? G. D. Houtman .....l 934
Railway:
Chicopee Falls railway bridge on Boston & Maine branch, arc-welded...n689
Grand Lake, Newfoundland, combined railway bridge and dam at lake outlet. A. B. McEwen.....*128
Missouri River bridge at Leavenworth of Chicago, Great Western Ry., strengthened by welding. W. R. Roof *176
Rock Island bridge across Mississippi river, litigation in 1856. S. L. Peebles .....l 974
Rock Island bridge at DeValls Bluff, Ark., direct-hoist lift span *705
Wabash Ry. builds new bridge over Sangamon River. S. M. Smith....*464
Riverview, Florida, Alafia River bridge, application to War Department n611
Rock Island bridge across Mississippi River, struck by steamer in 1856, and ensuing litigation. S. L. Peebles..l 974
San Francisco Bay bridges:
Election to decide public or private financing n649
Golden Gate bridge, probable cost prohibitive and counties to debate benefits e863, n890
Little Coyote Point bridge, progress..n609
Public ownership of bridge approved in election n815
San Francisco to ask Congress for Bay bridge permit n240
San Pablo Point bridge, progress ...n609
War Department ruling bows to Navy ruling and disapproves bridge north of Hunters Point—a case for review e617, n649
Sangamon River bridge built by Wabash Ry. S. M. Smith.....*464
Sixth St. bridge, Pittsburgh, Pa., dismantling top chord and moving span. D. T. Jerman *473
Skew, rigid-frame, solid-section, three pioneer bridges, Bronx River Parkway at Scarsdale, Hutchinson River Parkway at New Rochelle and at Scarsdale, Westchester County, N. Y. A. G. Hayden *867
Suspension:
Hudson River, Fort Lee bridge:
Suspension type on toll basis, design of 3,500 ft. bridge.....e211, *212
Wire cables lower in estimated cost than eyebars n563
Menai Straits suspension bridge may be removed *499
Ohio River suspension bridge at Portsmouth, with historical sketch of Ohio Valley bridges. D. B. Steinman *620
Scioto River suspension bridge at Portsmouth, failure in 1880. S. P. Baird .....l 812
Wire and eyebar cable comparison. (See Bridges, Hudson River, Fort Lee.)
Tampa Bay bridge project.....n159
Thousand Islands bridge charter to be asked of Canadian Parliament.....n610
Toll:
City toll bridges, example, Narrows bridge, Brooklyn to Staten Island, e553
City toll bridges, three in Richmond. P. K. Schuyler .....l 850
Detroit-Windsor toll bridge, bonds issued n158
Hudson River, Fort Lee Bridge, suspension type, on toll basis, design of 3,500 ft. bridge e211, *212
Intra-city toll bridge in Boston. E. H. Rogers .....l 686
James River bridge at Newport News, plan approved by War Department n406
Mount Hope toll bridge to proceed..n240
Narrows bridge, Brooklyn to Staten Island, Fowler, C. E., to apply for franchise n611
New Orleans highway toll bridge to Gretna approved n32
San Francisco Bay, Little Coyote Point, plans approved by War Department n406
Tacony-Palmyra bridge, near Philadelphia, plan approved by War Department n406
Trestles:
Highway trestle, Santa Maria, Calif., ingenious concreting plant layout..j*70
Tyrone, over Kentucky River, application approved n977
Bridges and shipping, an early case. S. L. Peebles .....l 974
Brown Hoisting Machinery Co. and Industrial Works combine n362
Bryan, Charles W., death..... n31
Buckets:
Clamshell bucket:
Improvised digs deep hole for pilaster. H. O. Stiles j*317
Two, with one-piece crosshead (Owen Bucket Co.) n*653
Bucyrus and Erie merger n160, n894
Budget item for proposed investigation of unprofitable manufacturing e533
Buffalo, N. Y., government of city goes back to checks and balances e414
Buffington, Ind., new harbor constructed..*101

BUILDING

Costs of building and industrial progress. E. J. Mehren a596, e657
Home building on increase in New York City n983
Salaries in building departments..... 382
Tendency to ephemeral due to change in home status e248

BUILDING ACCIDENTS AND FAILURES.

Collapse of paper mill, Kimberly-Clark Co., due to faulty construction.....*1012
Garage, steel, panel fails in violent wind n*937
Kimberly, Wisc., paper mill fails.....n610
Portland, Ore., building failure due to splice of wooden truss.....*805
Steel-frame building under construction at Paducah, Ky., blown down ...e45, n76

BUILDING CONSTRUCTION

Arc welding used on one-story building two acres in area. G. D. Fish.....*1041
Concrete:
Record made in construction program in Canada n525
Winter concreting, protecting heavy sections. C. S. Hill.....*597
Winter inclosure in building construction. C. S. Hill.....*674
Detroit Edison Co., Delray power station, foundation work hampered by soft ground and seamy rock. C. H. Dickinson *424
Foundation conditions and methods, unusual, Greater Penobscot Bldg., Detroit. W. S. Wolfe and D. R. Martin *1034
Hurricane damage to two Miami buildings repaired. E. A. Stuhrman *1049
Los Angeles garage deep foundation pit in earth dug with outside cut before interior core. Z. Witkin *666
Miami, Florida, Meyer-Kiser and Realty Board buildings, hurricane damage repaired. E. A. Stuhrman *1050
Mill (blanket weaving) of stone and wood replaced by steel-frame structure by subscription. North Star woolen mill at Minneapolis. 1, C. F. Haglin *12
Reims Cathedral reconstruction uses precast concrete members simulating destroyed ones e290, *292
Troubles of building construction, address by H. J. Burt to Concrete Reinforcing Steel Institute j314
Welding costs on Westinghouse building at Sharon, Pa. 469
Wrinkles in construction, worth-while, on Mayfair Hotel, Los Angeles. Z. Witkin *98

BUILDING DESIGN

Acoustical hotels. "D. S. G."..... l 934
American Institute of Steel Construction discusses rivet stresses, wind stresses, tall buildings 716
Asheville, N. C., City hall design....n*282
Chicago, Ill., school building design to be studied n281
Concrete:
Use and cost of reinforced-concrete buildings affected by design factors. W. W. Hay.....*168
Dead-loads of tier buildings. R. Fleming *470
Dome, hemispherical, steel-framed, on temple at Portland, Ore. F. Blood...*542
Earthquake resistance:
Messina, earthquake construction. A. B. Hunicke .....l 192
Locomotive repair shop, Chicago, Indianapolis & Louisville Ry., building, pits, cranes, design *759
Modern pyramids—can we build them? Analysis of the requirements in materials and design to erect imperishable structures. e862, D. C. Coyle... 884
Sleeper-spacing anchor (Union Steel Products Co.) n*80
Steel-frame mill built outside and through stone and wood structure of North Star Woolen Mill. C. F. Haglin *12
Timber framing in multi-story industrial buildings, and some illustrations. e2, *20
Tower and building design, Mather building, Chicago, 256-ft. tower above 24-story building *824
Wind action:
Tier buildings, wind connections. W. H. Weiskopf *396
Wind bracing:
Welded bracing connection, combined with riveting, tested by Detroit committee. W. A. Hakin and R. G. Richards *752
Building reconstruction and repair:
Addition of six stories on stilts to 12-story building. D. Gutman.....*356
Industrial:
Meat-packing plant, T. M. Sinclair & Co., Cedar Rapids, Iowa, altering building. M. J. Hess.....*713
White House roof enclosed during repair and addition to building j479

BUILDINGS

Delco Light Co. building for refrigerator manufacture, size, design, construction. N. J. Bell *496
Detroit, Greater Penobscot Bldg., unusual foundation conditions and methods involved. W. S. Wolfe and D. R. Martin *1034
Industrial:
Community market building at Royal Oak, Mich. 255
Contractor's equipment storage and repair plant (R. C. Wieboldt Co., Chicago) e45, *62
Delco Light Co. building, for refrigerator manufacture, size, design, construction. N. J. Bell..... 496
Figures for industrial buildings close to 1926 mark n983
Kiln tunnel building of Westinghouse High Voltage Insulator Co., Derry, Pa., arc welded. G. D. Fish *1041
Meat-packing plant, T. M. Sinclair & Co., Cedar Rapids, Iowa, altering building. M. J. Hess.....*713
Mill (blanket weaving), of stone and wood, replaced by steel-frame structure by substitution, North Star Woolen Mill at Minneapolis. C. F. Haglin *12
Paper mill, Kimberly-Clark Co., Wisconsin, collapse due to faulty construction *1012
Timber frame industrial buildings, fire protection discussed. R. S. Moulton l 192, F. P. Cartwright.....l 404
Timber framing in multi-story industrial buildings, and some illustrations e2, *20
Locomotive repair shop, Chicago, Indianapolis & Louisville Ry., building, pits, cranes, design *759
Lubbock, Texas, new state college buildings *504
Mather Building, Chicago, tower 256 ft. high tops 24-story building *824
Mayfair Hotel, Los Angeles, worth-while construction wrinkles. Z. Witkin... *98
Obsolescence study of Woman's Temple, office building in Chicago..... 136
Oil field buildings, Bartlesville, Okla., made of old storage tank plates.....j*235
Reims Cathedral reconstruction uses precast concrete members simulating destroyed ones e290, *292
Richmond power station, Philadelphia, foundation built in wet ground..... 511
St. Louis Telephone Building, foundation exploration, open-well piers, design. W. J. Knight *536
Temple at Portland, Ore., with steel-framed hemispherical dome. H. F. Blood *542
Valuation:
Denver, Colo., revaluation of buildings for tax assessments. W. L. Prouty *387
West Point, buildings and improvements to be recommended n196
Buses. (See Motor vehicles.)

C

Cables:
Portland, Ore., electric power company lays cables on streets, in repair work n*728
Cableways:
Action on cableway up Mount Hood, Ore., postponed by secretary of agriculture n979
Block, single-sheave, for cableways (Sauerman Bros.) n819
Five, 3,100 ft. between masts, for Nile River dam work j932
Caissons:
Bridge piers of Flushing Creek bascule bridge built with floating caissons. E. I. Judd *48
Concrete, placed as foundation for a lighthouse 954
Detroit Edison Co., Delray power station, caissons for columns sunk in soft seamy rock, sulphur water shut off by grouting. C. H. Dickinson....*424
California:
Hyatt, Edward, Jr., made state engineer n690

CANALS

Chesapeake and Delaware Canal, deepening advocated n488

Lining:
Cement lining in irrigation canals in Imperial Valley an economic success *144
New York Barge Canal:
Terminals designed for rapid cargo handling. M. W. Williams *436
Panama Canal:
New high record for traffic 885
Panama Canal society to revisit canal work n77
Slides, during first part of 1927 146
Stevens, J. F., address to Am. Soc. C. E.e125
Car-dumpers:
Cradle rolled up incline, installation at Tampa j*602
Rotary car-dumper for large construction jobs (Roberts & Schaefer Co.) n*730
Car loading and unloading:
Hopper-bottom cars unloaded over track pit. J. L. Harrison j*604
Car puller, for spotting railroad cars in factory or construction yards (Galion Iron works) n*810
Cast Iron Pipe Bureau for research not publicity n120
Cathedral of St. John the Divine, pipe of wrought iron in masonry, for permanence 840
Cellar, waterproofing. F. E. Barnes j*1015

CEMENT

Alumina cement:
Temperatures developed in high-alumina concrete, Missouri highway tests. T. H. Cutler *146
Tests show temperature of alumina mix four times that of portland. A. Jakkula 955
Belgian cement imports drop n451
European cementation process introduced into U. S. n1023
German cement cartel dissolved n488
Imports by U. S. fall off n198
Portland:
Heat changes during setting. A. A. Jakkula 955
New markets for, pointed out by president of P. C. A. n981
Railroad rates, hearing ordered by I. C. C. n941
Safety campaign progress n488
Super-cement to be made by Vulcanite Portland Cement Co. n449
Tests:
Heat changes during setting of alumina and portland cements. A. A. Jakkula 955
U. S. foreign trade in cement 929
Vulcanite Portland Cement Co., makers of super cement, host to eastern engineers n563
Cementation process, European, introduced into U. S. n1023
Chins:
Chain slings, load charts for j*236
Chains:
Chain ring, wire-wound (adopted by Baldwin Locomotive Works) n*285
Chevalier, W. T., made head of McGraw-Hill construction papers n*852

CHICAGO, ILL.

City council prohibits parking in the business district n1058
Gets traffic commission n1059
Railway freight terminal traffic and facilities 345
School building design to be studied ...n281
Water meters:
Abandonment favored but War Department opposes change of plan n358
Laxity in installing meters scored by chief of engineers e413, n444
Reading of small meters stopped n564
Survey and waste control plan as substitute for metering n157, 263
Urged twenty years ago—quotation from Engineering News. W. L. Swanton l404
Waste survey to supplement and supplement and supplant meters, ordinance introduced e166, 263
Water-works:
Western Ave. pumping station opened n240
Works planned with bonds include river straightening, bridges, street work, etc. n117

CHICAGO DIVERSION OF WATER FROM GREAT LAKES

Permit secured by Chicago Sanitary District is legal. C. E. Hughes advises U. S. Supreme Court e861, n890
Chile, water treatments in cities, progress 233
China:
Flood problems similar to those of Mississippi River, levees best protection. G. W. Olivecrona a875
Chlorinators. (See Water treatment, chlorination.)
Cities:
Crosstown problem, competition of intersecting traffic streams e861
State control of municipally-owned utilities e945
City engineers and engineering. (See Municipal engineering.)

CITY MANAGER PLAN

Lethbridge, Canada, adopts city manager plan n690
Ohio cities governed under city manager plan e782

CITY PLANNING

Zoning:
Cambridge zoning ordinance upheld in Massachusetts n158
Cities in United States with zoning ordinance total 553 .....e495, n526
Minneapolis zoning ordinance upheld by U. S. District Court e495, n525
Missouri supreme court declares city zoning constitutional e85, n115
New Jersey to vote on zoning: votes, not expectations count e247
New Jersey zoning amendment to constitution passed n485
Onward march of zoning ..495, n525, n526
Township zoning case. (See Township zoning.)
University Heights, Ohio, ruling invalid n322
Wisconsin City, and Regional Planning Association meeting n689
City supervisor to be appointed at Englewood, N. J. n1022
Clamp for construction hose (National Clamp Co.) n*35
Coast protection. (See Shore protection.)
Cofferdams:
Arlington bridge, deep steel sheetpile cofferdam. C. Carswell *92
Toe of cofferdam for Hudson River bridge fails n1057
Colorado River:
No agreement reached on price of Colorado River power n1057

COLUMNS

Nature's columns—palm varieties. A. W. Rogers l482
Reinforcement, spiral, New York, Joint Committee, and Chicago codes, specification tables. J. Feld j*766
Steel slabs for column bases readily available. G. A. Cardwell l192
Communication and transit, international conference at Geneva n358

COMPRESSED AIR

Air compressors:
Perform emergency shop service during New England flood. Raymond Beechwood j*1014
Portable compressor in three sizes (Denver Rock Drill Mfg. Co.) ...n*199
Water pump and air compressor in new combined equipment (Ingersoll-Rand Co.) n34

CONCRETE

Alumina in concrete:
Temperatures developed in high-alumina concrete, Missouri highway tests. T. H. Cutler *146
Asphalt-coated concrete for pipe and pavement (Asphalto-Concrete Corp.)..n244
Bond between concrete and reinforcing, testing by glass plate and pipe device. R. C. Durst j*402
Buildings of reinforced concrete, use and cost affected by design factors. W. W. Hay *188
Control of concrete in proportioning. (See Concreting, proportioning.)
Curing:
Calcium chloride, effects on road slab concrete, Tennessee tests. H. P. Olson *69
Finishing:
Compressed air tool finishes surfaces of walls and bridges (Ingersall-Rand Co.) n*198
Klamath River arch bridge, repairing defective concrete e331, *336
Quality design and control of concrete. J. A. Kitts 232
Ready-mixed concrete provided in truck-mounted mixer (Transit Mixers Co.) .n*856
Reims Cathedral reconstruction uses precast concrete members simulating destroyed ones e290, *292
Road yardage for November 1061
Setting:
Longview, Wash., railroad viaduct over highway in service 8 days after pouring concrete j*155
Shrinkage:
Tests show shrinkage effect of calcium chloride in concrete. A. S. Levens.. 912
Steel versus concrete, American Institute of Steel Construction, discussion..e697, 716
Strength:
Alumina (high early-strength) and portland cement used in concrete road patches in Kansas. W. A. Stacey *804
Tests:
Long-time, of concrete using various coarse aggregates. P. J. Freeman.. 879
Shrinkage effect of calcium cholride. A. S. Levens 912
Torsion tests of concrete cylinders, in Japan 114
Tunnel lining with e1028
Wingwall of defective concrete falls at Indianapolis *380

CONCRETE AGGREGATES

Durability tests at Bureau of Standards 183
Long-time tests of concrete using various coarse aggregates. P. J. Freeman ... 879
Sand-gravel used as total aggregate on Kansas road work. W. V. Buck *749
Water content of damp aggregates tested quickly by device. T. Collins j*604

CONCRETE MIXERS

Kerosene burning heater for any type of mixer (Littleford Bros.) n*942
Ready-mixed concrete provided in truck-mounted mixer (Transit Mixers Co.) n*856
Speedy 10-S mixer (Marsh-Capron Co.) n*529
Worm speed reduction mixer in new size 10-S (Lakewood Engineering Co.) ...n*33

CONCRETE REINFORCEMENT

Bending reinforcing bars, apparatus designed by A. S. Terhaar j*605
Bond between concrete and reinforcing, testing by glass plate and pipe device. R. C. Durst j*402
Column reinforcement, spiral, New York, Joint Committee, and Chicago codes, specification tables. J. Feld j*766
Handbook of reinforcing steel soon to be ready n566
Highway design, bonding steel in concrete roads. E. E. Bauer *462
Rail Steel Bar Association meets n730

CONCRETING

Control of concrete in proportioning. (See Concreting, proportioning.)
Dipping tank, seepage water removal during construction. R. D. Stephens j*72
Dumping aggregate cars at top of incline by device on Pacoima dam j*401
Formwork:
Iron bracket supports staging on formwork. D. McFarland j*402
Providence, R. I., reservoirs, covered, concrete form-handling ingenious ..*838
Sliding forms used in building grain silos in England e2
Tie wire bending device used at Exchequer dam. D. McFarland j*480
Gun potent of Concrete Mixing & Conveying Co. held invalid n854
Inundators:
Wheelbarrow-carried inundator for small jobs (Blaw-Knox Co.) n*35
Loader, elevating, double hopper (George Haiss Mfg. Co.) n*34
Malibu bridge, concrete plant kept in highway right-of-way. R. Twaddle..j*315
Plant layout for highway trestle concreting, Santa Maria, Calif. j*70
Proportioning:
Highway work in South Carolina, control of concrete and workmanship. E. D. Sloan, Jr. 711
Road work mixes, economics, strength, thickness, cost bulking, voids. R. T. Giles *512
Storage bins (Besser Sales Co.) n*818
Timing of mix:
Egg-timer from ten-cent store useful. E. E. Howard l192
Lamps made into timer on Cushman power project. R. F. Bullard l74
Water control:
Highway work, state specifications tabulated by Portland Cement Association e46
Winter concreting, protecting heavy sections. C. S. Hill *597
Winter handling and placing of concrete. C. S. Hill *544
Winter heating of concrete materials and mix. C. S. Hill *506
Winter inclosure of concrete in building construction. C. S. Hill *674
Conduits:
Boulevard, Long Island, conduit of old masonry reinforced to support heavy sand fill. J. Goodman.....*313

CONSTRUCTION

Building construction trouble, address by H. J. Burt to Concrete Reinforcing Steel Institute j314
Building construction wrinkles, worth while, on Mayfair Hotel, Los Angeles. Z. Witkin *98
Camps:
Comfortable camp conditions prevent labor troubles e86
Capital invested in construction, increase since 1913 .....e534
Costs:
Assorted constructions, costs.....n287
Cost and volume index numbers n896
French construction cost increase n451
Production and profit coincident on concrete road work, e862, J. L. Harrison e886
Time distribution sheets aid cost finding j154
Crawler tractors haul equipment for Menominee River plant through mud and snow. N. F. Helmers.....j*72
Day labor construction:
Atchafalaya river railway bridge built by force account e533, P. F. Lyons*540
Federal public works construction, bill requiring calling for bids to be again presented to Congress n853
Sewer tunneling by day labor at St. Paul, Minn. W. N. Carey *709
Demurrage charges should be watched ..e209
Equipment:
Belt conveyor order blank shows development of application e329
Depreciation basis on contractors' equipment for income tax use, agreement tentatively reached by revenue bureau and A. G. C. n320
Mistreated equipment e659
Out-of-date, unsafe equipment, cofferdam work an example e374
Storage and repair plant of R. C. Wieboldt Co. in Chicago e45, *82
Winter care and servicing of equipment. C. S. Hill *391
Fire hazards in construction, Pittsburgh bridge example e375
Metal forms and steel falsework suggested. "Construction" 1522
Force account. (See Construction, day labor.)
Foreign projects, seventeen, information from Department of Commerce n286

*Illustrated; a, abstracts; e, editorials; j, job and office; l, letter; n, news

Forms, sliding, used on grain silos in England e2
Materials:
Imports of building materials decline. n983
Modern pyramids—can we build them? Analysis of the requirements in materials and design to erect imperishable structures. e862. D. C. Coyle 884
Monthly prices of materials 900
Motor trucks, number used in the construction field n33
Plant layout:
Detroit water supply tunnel, methods in plastic clay, contract conditions, construction methods and plant. . .*948
Malibu bridge, concrete plant kept in highway right-of-way. R. Twaddle j*315
Safety measures:
Associated General Contractors safety manual e741
Safety Congress discusses contractors' safety measures j683
Staging supported on form work by use of iron bracket. D. McFarland . .j*402
Winter:
Allentown, Pa., testing laboratory, concrete, built in winter. E. B. McCready *233
Railway construction in winter is increasing e698
Road bridges, 47, constructed by Michigan highway dept. standard field practices and engineering control followed *914
Seasonal construction declines e329
Winter construction (C. S. Hill.)
1. Planning and servicing winter construction e329, *332
2. Equipment care and servicing . .*391
3. Winter excavation and embankment construction *421
4. Concrete road construction in winter *466
5. Concrete materials and mix, winter heating *506
6. Handling and placing concrete in winter *544
7. Protecting winter-placed concrete in heavy sections *597
8. Winter inclosure in building construction 674
Wood, use in construction, data wanted for manual n324

CONTRACTING

Bids:
Jazz bidding for Nile River dam e493
Uniformative proposal advetrisements wasteful in result e906
Withdrawal of other bids by contractor who gets one contract in state highway work e126
Demurrage charges should be watched . .e209
Time distribution sheets aid cost finding j154

CONTRACTORS

Corporation replacing contractor changes personal interest to good will toward job e414
Equipment:
Depreciation basis on contractors' equipment, for income tax use, agreement tentatively reached by revenue bureau and A. G. C. n320
Plants:
Equipment storage and repair plant of R. C. Wieboldt Co. in Cihcago. .e45, *62
Travel records of 1,000 contractors in connection with big jobs n655

CONTRACTS

Biggest contracts in 24 weeks of 1927. .n123
Preliminary estimates for 1927 and figures for week ending Dec. 15, 1927. .n984

CONVEYORS

Belt:
New feature of Lewis travelling girder speeds tunnel driving j*933
Order blank shows development of application e329
Brick-unloading conveyor (George Haiss Mfg. Co.) n*285
Carriers for conveyor belts up to 60 in. (Stephens-Adamson Mfg. Co.) n*614
Correspondence schools representatives meet in Pittsburgh n116

Costs. (see Construction, Costs; Economics.)
County Highway Officials Association organized as division of A.R.B.A. e1, n29
Meeting announced n770
Crane, Clarence A., secretary and general manager of General Contractors' Association of New York, death n937

CRANES

Overhead connection of crane-rails to I-Beam j*235
Rail clips for cranes. D. E. Parrish . . l *357
Shovel-crane designed with few parts (American Hoist & Derrick Co.) . . .n*730
Tractor mounting of crane unit "Tractocrane" (Vergan Schmidt Co.) n613
Traveling crane fabricated by arc-welding (Cleveland Crane & Engineering Co.) n*409
Truck crane for 2-ton trucks is demountable (Squier-Rix Co.) n*33
Crawler truck, new, powered by Fordson (Saw Mfg. Co.) n*941
Culverts:
Static and impact loads on culverts, Iowa State College studies 28
Curve resistance of freight trains determined by tests 916

D

DAMS

Abyssinian dam, Lake Tsana, Blue Nile, White, J. G., Engineering Corporation given contract n774
Arch dams:
Test arch dam on Stevenson Creek, deflections and stresses. F. A. Noetzli *66
Bristol dam on Pemigewasset River, New Hampshire, designed for later increase of height. W. D. Henderson . .*264
Camarasa dam, foundation grouting . . . 105
Church community near Kansas City, dam for water supply. C. F. Lambert . . .*399
Concrete:
Thin and massive, compared e987
Deadwood dam, consulting engineers named n239
Design:
Gravel-and-hollow-type, composite, on Pit River, combines security and economy *994
Diablo Canyon arch dam for Seattle water supply n159
Specifications ready n241
Eguzon, France, hydro-electric power plant and dam, rubble masonry and other different features e456, *458
Erosion at toe of dams and spillway discussed at Columbus meeting of American Society of Civil Engineers e677
Exchequer dam:
Reservoir capacity checked by flow record. D. McFarland j*73
Tie wire bending device used at Exchequer dam. D. McFarland j*480
Failures:
Wise River dam, small rock and earth fill n196
Flashboard design diversion dam with concrete apron and sheetpiling cutoff walls, for Lacombe steam plant, Denver j*769
Germantown dam of Miami Conservancy District, core studies undertaken n690
Gibson dam, consulting engineers named n239
Grand Lake, Newfoundland, combined railway bridge and dam at lake outlet. A. B. McEwen *128
Gravity-and-hollow-type composite, on Pit River *994
Gros Ventre River "dam" caused by slide; further data and lessons e578, *600
Hudson River dam of large size called for by Hudson River Regulating District n854
Intake on old masonry dam at Newton, N. J., still good j237
Mokelumne River, Lancha Plana dam, work started n444
Nile River dam:
Contract to English firm n444
Five cableways, 3,100 ft. between masts, for transportation of men and materials on Nag Hammadi barrage. j932
Nag Hammadi barrage, bidding erratic "Jazz" e493
Owyhee dam, consulting engineers named n239
Pacoima dam:
Dumping aggregate cars at top of incline by device j*401
For Los Angeles County flood control, construction *168
Pit River No. 4:
Composite gravity and hollow type dam, design combines security and economy *994
Reclamation dams, Owyhee, Deadwood and Gibson, consulting board named. .n239
Rubble masonry on Eguzon dam in France, a different construction e436, L. B. Desbleds *458
Saluda River dam, contract let n321
San Gabriel dam for Los Angeles County flood control:
Bids rejected in favor of higher dam n239
Contract award delayed by injunction n157
Correction in a name 380
High dam now planned n563
Spillway design:
Pondage important factor in spillway design. M. D. Casler, *133, 260; H. K. Palmer, 1443; J. C. Stevens, W. S. Pardoe, and M. D. Casler . .l *606
States rights over power dam upheld in case of Fox River dam in Wisconsin. . n30
Test arch dam on Stevenson Creek: Deflections and stresses. F. A. Noetzli *66
Tests:
Model semicircular arch dam tested in Italy. C. Guidi *668
Thin and massive, a comparison e987
Toe erosion at dams, Holyoke dam, 1886. C. Herschel ..... l 811
Toe erosion below overfall dams prevented by hydraulic jump. S. M. Woodward ..... l 974
Willwood diversion dam on Shoshone irrigation project, design features, tests ,costs. I. E. Hauk *660
DeBerard, W. W., rejoins staff of Engineering News-Record n562
Demurrage charges. (See Construction; Contracting.)
Denver, Colo., revaluation of building for tax assessments. W. L. Prouty *387
Detours. (See Highway construction.)

DETROIT, MICH.

International bridge to Windsor:
Referendum 8 to 1 for bridge n30
Bonds issued n158
Sewage works:
City starts to acquire site n872
Progress *959
Vehicular tunnel, Detroit-Windsor:
First steps taken n281
Approved by Detroit electors. n892
Water supply tunnel, methods in plastic clay e945, *948
Draft tubes:
Vibrations or "thumps." e679
Drainage:
Everglades drainage plan endorsed 187
Everglades tax law declared void. n1059
Land drainage report, 13 points to be covered. A. M. Shaw 1001
Minneapolis and St. Paul drainage commission personnel restated n77
New Orleans, La., drainage extends suburban area in Jefferson Drainage District *114
Well-point, European advance in pit drainage, and comparison with methods for foundation pit at Lynn, Mass., abstract of a paper by Charles Terzaghi a*1013
Drawing instruments:
Parallel rule with sprocket wheel and chain (C. F. Pease Co.) n*121
Drawings:
Shellac increases life of working drawings j849
Dredges and dredging:
Electric dredge operated from shore line cable. (Woods Brothers Construction Co.) n*34
Diesel dredge in operation on New York State barge canal 1061

DRILLS AND DRILLING

Arcless electric furnace heats drill steel on Balch power plant work. H. K. Fox j*234
Big Bend tunnel, inquiry if steel drill was used. G. B. Johnson ..... l 192
Diamond drill mounted, for testing deep structures (Sullivan Machinery Co.) . n*325
Electric drill for contractors' shops and repair yards (J. T. Ryerson & Son) . . n33
Rock drills need same care as other equipment, manual of Wood Drill Works. .n324
Tunneling and quarrying drills, four developed (Sullivan Machinery Co.) . .n*731
Dry-docks:
Singapore floating dry-dock sections launched in England n446
Dump-wagon, 7-cu.yd., crawler-mounted (Western Wheeled Scraper Co.) n*856

E

Earth moving:
Machine which excavates, moves and deposits earth, used in California. . . .j237
Earth slides:
Gros Ventre River "dam" caused by slide, further data and lessons. e578, *600
Earth vibrations in blasting measured. . . . 347
Earthquakes:
California, southern, visited by slight earthquake. n242
Data for engineer through improved seismology. J. R. Freeman 174
Insurance rate developments on west coast due to study of earthquake risk e126
Insurance rates changed on Pacific Coast n116
Messina, earthquake construction. A. B. Hunicke ..... l 192
Economics:
Book cost, not reproduction-cost-new, to be used in valuation of New Jersey telephone company e249
Costs, construction. (See Construction).
Municipal tax dollars and budgets e210
Unprofitable operation of manufacturing concerns, budget for investigation proposed e533
Egypt:
Alexandria has extensive paving plan. . . 224
Dams. (See Dams, Nile River.)
Engineering:
Oil fields. (See Oil field engineering.)

ENGINEERING EDUCATION

Accidents and accident prevention n609
Arkansas University, new engineering hall *827
Blanchard, A. H. resigns highway engineering post at Michigan n283
Building construction evening courses at College of City of New York n445
Cornell and Wisconsin summer schools for teachers of mechanics e45
Correspondence schools representatives meet in Pittsburgh n116
Freeman traveling fellowship for hydraulics study in Europe makes marked men e414, n445
Future engineers in the colleges now. .e457
Hydraulics fellowships. (See Hydraulics)
Lubbock, Texas, new state college, industrial education, buildings *504
Materials, confusing teachings on stresses, in text-books. D. J. Fee *517
Robert College in Turkey, engineering school progress n360
S.P.E.E. announces widespread investigation in engineering education. n1058
Summer schools at Cornell and Wisconsin Universities, staff lists n*194, *195
Wisconsin and Cornell summer schools for teachers of mechanics e45
Wisconsin university to have new buildings n727

ENGINEERING ETHICS

North Carolina society considers practice code and fees questions n77

*Illustrated; a, abstracts; e, editorials; j, job and office; l, letter; n, news

Engineering News-Record:
Chevalier, W. T., made general manager of McGraw-Hill construction papers. n*852
Cost and volume index numbers n896

ENGINEERING SOCIETIES
Co-operation of organizations recommended by Major Putnam, president of Western Society of Engineers e165
Crystallization and growth of technical work e127
Model convention of New England Water Works Association e456, 474, 483

ENGINEERS
Australian locomotive engineers' society, name adjusted 837
California officials retained in office .. n195
Licensing:
Agency employment of engineers.... l 1056
Is licencing advantageous? L. F. Van Hagen ..... l 1056
Michigan case, engineers win suit 26
Untrue statements cleared. P. Benz and E. D. Millar ..... l 319
National Council of State Boards of Engineering Examiners adopts model registration law n892
Unlicensed New York engineers face legal involvement n1059
Salaries:
American Society of Civil Engineers directs attention to New York engineering salary inequities n608
Building department salaries 382
Engineering not sold by the quart .. e698
Engineering salaries and the unions. J. R. W. l 975, H. E. Wessman.... l 975
New York City engineers, civil service examiner recommends higher pay.. n564
New York City, engineering employees to seek salary increase n688
Philadelphia, Pa., candidate for mayor advocates better salaries for engineers e493
Unionization an aid to securing better salaries. e698, J. P. J. Williams l 724, E. M. Craig l 850, W. C. Hogoboom ..... l 1018
Turnover in personnel in state highway departments e699
Word "Engineer" eliminated from non-technical positions in Los Angeles County 611
Engines:
Diesel engines:
Light weight, high speed Diesel engines developed (Fairbanks, Morse & Co.) n*566
Gasoline engines:
Heavy duty 150-hp. gasoline engine (Buda Co.) n*777
New line of heavy-duty engines designed with new features (Hercules Motors Corp.) 1061
Englewood, N. J., city supervisor to be appointed n1022
Equipment. (See Construction; Highway equipment).
Erie and Bucyrus merger n160
European advance in pit drainage using well-points a*1013
Everglades tax law declared invalid..... n1059

EXCAVATING MACHINERY
Clamshell bucket improvised digs deep hole for pilaster. H. O. Stiles j*317
Dragline, crawling, easily moved and erected (Page Engineering Co.).... n*529
Diesel operated excavating machines announced (Harnischfeger Corp.).... 1062
New model 150 service ditcher digs while traveling backward (Buckeye Traction Ditcher Co.) *n895

EXCAVATION
Mine stripping record at Calumet, Minn., by A. Guthrie & Co. n692
Trench job, Los Angeles County, floating walling on trencher boom speeds wet job. A. M. Rawn j*314
Winter excavation and embankment construction *421
Expert testimony in Great Britain 477
Explosion, of gasholder at Pittsburgh.... e1027
Explosives:
Blasting railroad cuts, explosives use.. j*403
Dynamite used to sink wrecked vessel to safe depth. W. B. Smith j*931
Oxygen, liquid, as explosive in coal and quarry stripping j73

F

Farmer aid on engineering principles, proposals by American Society of Agricultural Engineers e373, n405
Federal Power Commission:
Report, annual, favors control by state agencies where possible e822, n851
Ferries:
State highway ferry service at Straits of Mackinac. M. DeGlopper *554

FIRES AND FIRE PREVENTION AND PROTECTION
Brick walls, fire resistance tests, several years at Bureau of Standards 628
Correction on 708
Norfolk, Va., low fire loss shows intelligent housekeeping e248
Oil field fires and protection. (See Oil field engineering).
Pittsburgh, Pa., Mount Washington bridge fire showed construction hazards. e375, "Construction," ..... l 522

FLOODS AND FLOOD CONTROL
Australia, England, India have floods.. 273
Beardstown, Ill., flood protection work .. *588
China:
Problems similar to those of Mississippi, levees best protection. G. W. Olivercrona a875
Colorado River:
Easy runoff relieves delta flood danger. n195
Engineering groups advise House committee n978
Forecasting and forestalling floods to be aided by Geological Survey study. e783, H. Work ..... l 810
Forest and soil survey started in Mississippi valley n117
German flood misfortune can emphasize importance of long-time records e45
Long-time flood records lacking in America e85
Los Angeles County flood control:
Five flood control projects, construction under way n360
Pacoima dam, construction *168
San Gabriel River dam, high dam now planned n563
Mississippi River flood:
Committees offer preliminary data on flood control n1057
Epidemics did not follow flood e374
Hoover, secretary, statement of progress in flood relief e127, n156
Levees breached in flood, makeup of levees given in report by Colonel Potter 300
Mississippi River Commission report to be ready by December n320
Finds flood control to cost $684,000,000 ..... e986, a1006
Rivers and Harbors funds may be used n117
Not for Mississippi repairs n157
Railroads' aid summarized n406
Reservoir sites, 275, listed n196
Solutions:
American Society of Civil Engineers at Columbus meeting reviews Mississippi River flood problem, with address by A. E. Morgan criticizing Mississippi River Commission e618, 636, 641
American Society of Civil Engineers plans aid in problem n648
Coolidge on the Mississippi .. e905, n935
Congressman Reid differs e905
Federal control of flood plans, difficulties seen in problems of state relinquishment n851
Jadwin, Gen. E.:
Reports on flood protection system e946, *a961
Speaks to Mississippi Valley Association on flood control—condemns public works in Interior Department n813
Levees only not favored for abnormal floods, spillways needed. F. B. Maltby ..... l 686
Mississippi Valley Flood Control Association asks large federal expenditures n321
U. S. Chamber of Commerce. Flood control committee proposes government financing of Mississippi River control e657, n1019
U. S. Chamber of Commerce to study flood control problem n648
U. S. Engineers and Mississippi River Commission perfecting plans n360
Today in the Mississippi flood area—W. W. DeBerard.
I—Land and people of the Upper Basin e823, *828
II—Closing Mound Landing crevasse e863, *870

IV—What New Orleans thinks of flood protection *1002
V—The sugar cane industry and Atchafalaya crevasses *1043
Who should bear cost of flood control? e1029
New England flood:
Army engineers to study flood—swords and plowshares combined ... e782, n814
Damage described, stream flow effect on dams, reconstruction problems, hydrologic data needed. J. W. Shaver *841
Emergency water supply relief in flood area 889
Flood discharge estimated for Winooski River, at Burlington, Vt. L. R. Groves, jr. ..... l *1018
Geological Survey, U. S. to study flood. e783, H. Work ..... l 810
New Hampshire authorizes reconstruction fund, increases gasoline tax... n935
Precautions against floods, study needed, spillways and other devices, reminiscenses. J. R. Freeman .... l 810
Rainfall and damage e741, n*770
Rainfall figures isohyetal curves, comparison of 1927 with previous rainfall records. H. K. Barrows *796
Rainfall, record amounts, does heavy damage in New England .. e741, n*770
River conditions in flood area *798
Rainfall surpassed in central states in 1913. C. H. Eiffert ..... l 975
Sharon dam, concrete, damage reported by R. R. Marsden 799
Vermont arranges finance plan for reconstruction n1021
Vermont's flood losses e821
New York state to make survey of streams to reduce flood flows e985
Poland floods e373, n407
Rivers, flood crests to be studied by Federal Power Commission e167
Water resources survey before Congress. n1058
Work, Hubert, Secretary of Interior, plans that Geological Survey shall study flood hazards and flood forecasting. e783, H. Work ..... l 810
World had many floods this year e373
Floors:
Concrete floors, "stamproof" protects and cures (Master Builders Co.). n*450
Florida hurricane:
Lessons as to groins and seawalls. R. M. Miller *15
Repair of damage to two Miami buildings. E. A. Stuhrman *1049
Force account. (See Construction, day labor; Highway construction; Sewer construction, etc.)
Foreign trade:
U. S. imports of cement 929
Foundation Co., Ontario branch established n689

FOUNDATIONS
Detroit Edison Co., Delray power station, foundation work hampered by soft ground and seamy rock. C. H. Dickinson *424
Drill, diamond, mounted, for testing deep structures (Sullivan Machinery Co.) .n*325
Los Angeles garage, deep foundation pit in earth dug with outside cut before interior core. Z. Witkin *666
Placing a lighthouse foundation of four concrete caissons 954
Plans changed after water enters excavation, piers carries to underlying rock by pneumatic system. W. S. Wolfe and D. R. Martin *1034
Richmond power station, Philadelphia, foundation built in wet ground 511
St. Louis Telephone Building, foundation exploration, open-well piers, design. W. J. Knight *536
Francois Cementation Co., process introduced into U. S. n1023
Fritz, John, medal awarded to Gen. J. J. Carty n725
Furnaces:
Arcless electric furnace heats drill steel on Balch power plant work. H. K. Fox j*234

G

Garages:
Chicago, one panel of steel garage being erected fails in violent wind n*937

GARBAGE AND REFUSE DISPOSAL
Costs of refuse sanitation in nine cities, given in Cincinnati report 336
Incinerators:
Destructors no cure-all, says British Minister of Health e907
Los Angeles builds 800-ton refuse incinerator *54
Louisville, Ky., first incinerator unit placed in operation n196
Los Angeles system well planned e126
San Francisco amendment adding more scavengers e86
Vancouver, B. C., garbage collection methods and costs 513
Gary, Judge E. H., death of a great business man e289, n*322
Gas plant, natural gas, in Texas Panhandle, construction kinks j*768

GASHOLDERS
Pittsburgh gasholder explosion:
Building permit to reconstruct wrecked gasholder held up by city n851
Found accidental n1059
Not explained e822
Wrecks wide area n*813
Gasoline:
Gasoline taxes grow e209
Generators. (See Steam power.)
Germany:
Cost reduction drive in German industry. E. J. Mehren 307
European river-and-harbor laboratories revisited e861, J. R. Freeman 873
Girders:
Los Angeles theater girder of 103 tons moved through streets to site j*849
Motor-driven belt conveyor a new feature of Lewis travelling girder, speeds tunnel driving j*933
Welding girder, large, in Paris building 8

GRADE CROSSING ELIMINATION
Cook County study of grade separation n447
New York City Transit commission urges 42 eliminations for 1928. ..... n937
New York State grade crossing elimination conference called n444
Plans 203 eliminations n938
New York State railroads pledge grade crossing elimination n610
Ohio program to eliminate grade crossings through state n360
Syracuse, N. Y., new plan for grade crossing submitted n30
Grandstands:
Richmond, Va., timber stand section collapses n687
Greece, an engineer's comments. C. E. Grunsky 390

*Illustrated; a, abstracts; e, editorials; j, job and office; l, letter; n, news

Gypsum:
Sound insulation division created by U. S. Gypsum Co. n981
Gyroscope used in testing and recording track condition on Santa Fe Ry. e415, *428
Correction, and discussion of dynagraph cars e494

H

Harbor sounding:
Dictaphone used for sounding work in New York harbor j*316
Haulage:
Desert setting construction material hauled by crawler tractors with saddle blades j*478
Tower for oil field plant, weighing 62 tons, delivered on truck over country road j*481
Heating plant for University of Iowa. B. P. Fleming *1047
Helium, status of production 995
Herminghaus case returned by U. S. Supreme Court to California courts e657
Highway administration:
Changes in organizations of state highway departments e247
Turnover in state departments great ... e699
Highway associations:
County Highway Officials Association organized as division of A. R. B. A... e,l,n29
Meeting announced n770

HIGHWAY CONSTRUCTION

Allegheny County, Pa., highway system plan *580
Asphalt (See Highway construction, bituminous.)
Bidding practice:
Withdrawal of other bids by contractor who gets one contract in state highway work e126
Bituminous:
Asphalt paving worked with concrete finishing machine on road in California j*602
Cost and service of asphalt surfacing on low cost roads. C. N. Conner.. a924
Dimensions of America's public roads undertaking. T. H. MacDonald .. a923
Equipment to replace hand tools in surfacing asphalt, experiments of California Highway Dept. *869
California appropriation for convict highway labor. n446
Car loading and unloading:
Hopper-bottom cars unloaded over track pit. J. L. Harrison j*604
Chile, S. A., desert road building. W. E. Rudolph *667
Concrete:
Alumina cement concrete, temperatures developed in high-alumina concrete, Missouri highway tests. T. H. Cutler *146
Curing:
Calcium chloride, effects on road slab concrete, Tennessee tests. H. P. Olson *69
Curing, joints, etc., comments. L. M. Hersum ..... l 114
Ohio road to test concrete curing.. n524
Dirt planned against pavement edge protects green concrete. J. L. Harrison j*480
Finish in the new sense, not finishing e2
Production and profit coincident on road work, e862. J. L. Harrison.... *886
Sand-gravel used as total aggregate on Kansas road work. W. V. Buck .. *749
South Carolina, control of concrete and workmanship. E. D. Sloan, Jr..... 711
Water control in road work state specifications tabulated by Portland Cement Association e46
Winter construction of concrete roads. C. S. Hill *466
Day-labor road construction:
North Carolina, fast force-account road building in Jones County, day and night work. L. R. Ames..... *831
Detours:
Map marking of detours. e330. H. D. Ricker ..... l 522
Gravel roads:
Oiled gravel, surface mixed, for roads on Wyoming plains e697. C. H. Bowman 703
Stone and gravel bases for asphalt wearing courses. E. N. Seymour.. a923
North Carolina, fast force-account road building in Jones County, day and night work. L. R. Ames *831
Office checking field operations on Georgia roads. F. M. Garnett *877
Rain and roadbuilding e373
Sacramento, M. St. bridge approach on high sand fill. j155
State blue ribbon developments:
Illinois, station work in day-labor road building, e415. C. M. Hathaway.. *432
Kansas, sand-gravel used as total aggregate for concrete roads. W. V. Buck *749
Michigan state highway ferry service at Straits of Mackinac. DeGlopper, M *554
State systems, progress statistics e125
Station work, day labor, and flood difficulties on Illinois road building job, e415. C. M. Hathaway *432
Subgrader scraper collects earth plowings. J. L. Harrison j*684
Subgrade machine operates on road form (Ted Carr & Co.) 1062
Surfacing in 1926 tabulated by states. n162
Test road of concrete, 5 miles long, with sections of various designs built in California e3, *9

HIGHWAY DESIGN

Concrete:
Bonding steel in concrete roads, rational design. E. E. Bauer *462
Crown formula, modification of Rosewater's formula. E. R. Cary ..... l 850
Curing, joints, etc., comments. L. M. Hersum ..... l 114
Subgrade support, corner strength, and hexagonal slab design. H. O. Root .. l 27
Test road of concrete, 5 miles long, with sections of various design built in California e3 *9
Unstandardized concrete road design, variations among states e289. W. E. Rowe l 318, C. M. Noble and M. G. Findlay ..... l 811
Crown formulas. E. S. Ross j*152
Formula used at new Bedford, Mass. L. J. Hathaway ..... l 443
Vision-overtaxing eyes of drivers e87

HIGHWAY ECONOMICS

Bidding practice:
Withdrawal of other bids by contractor who gets one contract in state highway work. e126
Czechoslovakia creates large highway fund *665
Gasoline tax:
Flooded state (New Hampshire) authorizes reconstruction fund for roads and bridges, gasoline tax increased n935
Growth of e209
Provides funds for California highway development in 1928 ..... n890
New Jersey votes highway bonds n814
Office checking field operations on Georgia roads. F. M. Garnett *877
Politics eyes the highways (New Jersey)—correction and protest. A. H. Nelson ..... l 28
Highway education:
Michigan University highway transport conference announced n485
Highway engineering:
Blanchard, A. H. resigns highway engineering post at Michigan n283
Highway Engineering Bureau, organized to offer consulting service n1019
Highway equipment:
Asphalt melting kettle (Littleford Brothers Co.) n*447
Experiments to develop mechanical equipment to replace hand tools in surfacing asphalt *869
Graders:
Motor grader (Galion Iron Works) n*325
Motor grader attachment for 2-ton caterpillar tractor (Austin-Western Road Machinery Co.) n*33
Motor grader, new (Rome Mfg. Co.) .n*857
Loader, elevating, double hopper (George Haiss Mfg. Co.) n*34
Maintainer has 40 ft. of blades (J. D. Adams & Co.) n*857
Maintenance equipment management in Pensylvania e209. W. A. Van Duzer.. *220
Plows:
Rooter plow with wheels in place of handles (Ted Carr & Co.) n*81
Rollers:
Motor roller, 10-ton, with double worm gear drive (Austin Western Road Machinery Co.) n*856
Scrapers:
Wheeled scraper, one-man, for crawler tractor (Miami Trailer-Scraper Co. *80
Templet (scratch) and cleanup scraper combined (Ted Carr & Co.) n*362
Truck, 1½yd., for rebuilding use (Indiana Truck Corp.) n*121
Truck, six-cylinder, for long hauls (Indiana Truck Corp.) n*224
Highway financing. (See Highway economics.)
Highway guard rail:
Resilient guard (Joseph H. Ramsey patent) n*285
Highway guides:
Guide books of state highway departments of Ohio and Pennsylvania e617

HIGHWAY MAINTENANCE

Asphalt:
Dimensions of America's public roads undertaking. T. H. MacDonald.. a923
Reclaiming concrete roads by asphalt surfacing. V. L. Ostrander a925
Concrete road patches in Kansas with early strength alumina cement and portland cement. W. A. Stacey *804
Corrugations in traffic-bound roads, causes J. P. McMakin *384
Transverse rolling to cure corrugation. E. A. Stuhrman ..... l 522
County maintenance under state control in Wisconsin e85, J. T. Donaghey .. *88
Equipment for maintenance, management in Pennsylvania, e209, W. A. Van Duzer *220
Federal influence and authority in developing maintenance policies. e329. T. H. MacDonald *340
Maintenance series:
County maintenance under state control in Wisconsin. e85, J. T. Donaghey *88
Equipment for maintenance, management in Pennsylvania, e209, W. A. Van Duzer *220
Federal influence and authority. e329. T. H. MacDonald *340
Michigan, snow removal, determining requirements and methods and equipment. e250, e290, V. R. Burton *256, *302
Ohio, road maintenance by contract. G. F. Schlesinger *178
State maintenance independent of counties, Minnesota. W. F. Rosenwald. *142
Michigan state highway department snow removal, determining requirements, and methods and equipment. e250, e290. V. R. Burton *256, *302
Nail picker, magnetic, clears highways in Washington j*317
Ohio, road maintenance by contract. G. F. Schlesinger *178
Snow removal:
Michigan, snow removal, determining requirements, and methods and equipment. e250, e290, V. R. Burton *256, *302
State maintenance independent of counties, Minnesota, W. F. Rosenwald.. *142
Highway management:
County road systems are subject of awakened interest e907
Highway marking:
Detour marking with maps, e330, H. D. Ricker ..... l *522
Strangers need informative signs e330. H. D. Ricker ..... l 522
Highway material:
Steel, reinforcing, checked in Wisconsin j73

HIGHWAY RESEARCH

Bituminous sand used in test road in Canada 297
Concrete:
Mixes for road work, economics, strength, thickness, cost, bulking, voids. R. T. Giles *512
Corrugations in traffic-bound roads, causes. J. P. McMakin *384
Transverse rolling to cure corrugation. E. A. Stuhrman ..... l 522
Test roads:
Canadian test road in Alberta n561
Ohio road to test concrete curing .. n524
Vibrolithic and plain concrete road slabs tested by Bureau of Public Roads ... 800
Highway Research Board:
Committees to meet n405
Convention at Washington, reports not well presented e945
Meeting in Washington n851
Highway safety:
Human frailty causes many traffic accidents e456
National Safety Council discusses safety improvements e533

HIGHWAY SIGNS

Delaware, direction and warning sign successful. I. P. Jones ..... l *812
Reflector highway signs return headlight beam to source (American Gas Accumulator Co.) n*121
Highway systems:
Allegheny County, Pa., highway system plan *580

HIGHWAY TRAFFIC

Accidents:
Bridge approach hazards e657
Crossing accidents, responsibility status broadly changed by decision of Supreme Court that man on highway must stop e821
Human frailty causes many traffic accidents e456
Railroad crossing accidents are victims' fault, ruling of U. S. Supreme Court, Goodman case 718, n774
Safety, American Road Builders Association's safety educational campaign n525
City model traffic ordinance to be prepared by conference on street and highway safety n242
England's problems—some plans are counsels for despair e456
Haulage by railway and by motor truck compared at Los Angeles e166, 171
Safety:
American Road Builders Association's safety educational campaign n525
Highway transportation:
Bus traffic, effect on road structure e166
Michigan University highway transport conference announced n485

HIGHWAYS

Allegheny County, Pa., highway system plan *580
Bituminous roads:
Sand, bituminous, used in test road in Canada 297
Bus traffic, effect on road structure e166
Cahuenga Pass arch retaining wall continues slipping. F. A. Noetzli 681
California Highway Dept. experiments with mechanical equipment designed to replace hand tools in surfacing asphalt *869
California reports $23,500,000 for 1928 highway work n890
Concrete:
Colored concrete road in Texas e374
Test road of concrete, 5 miles long, with sections of various design built in California e3, *9
Conduit Boulevard, Long Island, built on deep sand fill over masonry water line. J. Goodman *313
Construction progress on state systems, statistics e125
County road management is subject of new interest e907

*Illustrated; a, abstracts; e, editorials; j, job and office; l, letter; n, news

Detours. (See Highway construction.)
Georgia:
State highway dept. uses office checking against field operations. F. M. Garnett *877
Gravel roads:
Rhythmic corrugations caused by light cars with their rapid rate of spring vibration e906, *913
Oiled gravel, surface-mixed, for roads on Wyoming plains e697, C. H. Bowman 703
Guide books of state highway departments of Ohio and Pennsylvania e617
Italian and Swiss roads. E. J. Mehren.. *56
Longview, Wash., railroad viaduct over highway in service 8 days after pouring concrete j*155
Mackinac Straits, ferry service serves state highways. M. DeGlopper *554
Politics eyes the highways. (See Highway economics.)
State systems:
Michigan state highway ferry service at Straits of Mackinac. M. DeGlopper *554
Swiss and Italian roads. E. J. Mehren.. *56
Test roads:
California, concrete test road 5 miles long with sections of various design e3, *9
Canada test road, bituminous sand used 297
Ohio road to test concrete curing ...n524
Vision on the highways, overtaxing eyes of drivers e87

HOISTS AND HOISTING

Chain, new high speed (Chisholm-Moore Mfg. Co.) n*1023
Chain slings, load charts recommended to American Railway Association ...j*236
Electric hoist ¼-ton (American Engineering Co.) n*613
Gasoline hoist, light weight, has single line pull of 1,500 lb. (S. Flory Mfg. Co.) n*692
Motor, electric, new line (General Electric Co.) n*778
Rapid unloading of gravel cars by small tractor hoist n*982
Spreaders for hoisting long loads, report to American Railway Association....j234
Trolley hoist, electric, mounted on 8-wheel carriage (American Engineering Co.) n*80
Home exhibit by Committee on Wood Utilization devoted to construction processes n776
Hoover, Herbert, for president..... e331
Hose clamp (National Clamp Co.)..... n*35
Housing:
New York City:
Excess condemnation plan provided in New York City ordinance....e165, n195
Modified n853
Housing bill passed by board of aldermen n322
Hudson River:
Dredging contract, third, may be held over n979
Hudson River bridge:
Toe of cofferdam fails n1057
Humphreys, A. C., former head of Stevens Institute, death n280
Hydraulic jump:
Prevents erosion below overfall dams. S. M. Woodward 1 974
Hydraulic research:
European river-and-harbor laboratories revisited, e861, J. R. Freeman 873
Laboratory in Bureau of Standards proposed n1022

HYDRAULICS

Current meters:
Au deep-well current meter for locating leaks. A. G. Fiedler *382
Investigation needed. P. E. Hoff 1 28
Draft tube vibrations or "thumps."... e699
Exchequer reservoir capacity checked by flow record. D. McFarland j*73
Fellowships in hydraulics for European study, first stage of study completed and names of holders n727
Gage, self-damping, for determining heads in pipe lines. D. S. Ellis....j*478
Garden hose discharge, field tests made in Marland development. J. B. Marcellus *14
Laboratories for study of hydraulic problems, European laboratories revisited e861, J. R. Freeman 873
Laboratory in the Bureau of Standards proposed n1022
Meanderings of alluvial rivers, as in India, governed by a fixed law..... *268
Missouri Basin river flow records..... 553
Pondage important factor in spillway design. M. D. Casler *133, 260, H. K. Palmer 1443, J. C. Stevens, W. S. Pardue, and M. D. Casler 1 *606
River surge, effect of power plant operation studied—Copco plant on Klamath River n117
Turbines:
Efficiency 94 per cent at Melones plant on Stanislaus River *628
Winnipeg aqueduct, flow tests, discussion and reply. A. L. Collins and J. H. Grant 1 27
Hydraulics Society booklet n284

HYDRO-ELECTRIC POWER

Applications. (See Hydro-electric power, permits.)
Ben Nevis Mountain in Great Britain, power tunnel 16 miles long 795
Bridge River project in British Columbia:
Tunnel surge chamber and intake, bids to be asked n196
Tunnel contract let to Vancouver firm n689
Chippewa Falls hydro-electric development started n446
Clinch River and East Tennessee River and Cove Creek power questions....n118
Conowingo project:
Transmission line towers tested..... *792
Costs per kilowatt for four power plants n286
Gatineau River, Pangan Falls, project has rapid progress n283
Grand Lake, Newfoundland, bridge and dam on development for power and paper company. A. B. McEwen..... *128
Holston River projects, jurisdiction by federal commission n159
Interconnected power systems favored by executive council of World Power Conference 1011
Laboratories:
European river and harbor laboratories revisted, e861, J. R. Freeman 873
Licenses:
Saluda project license executed..... n241
Niagara Falls and power developments, model built at University of Iowa..n*242
Pangan Falls project. (See Hydro-electric power, Gatineau River.)
Permits:
American River in California, application n118
Clark Fork of Columbia River, Hugh L. Cooper applies for permit n407
Connecticut River, favorable report for North Connecticut Power Co. n817
Cumberland River, Big South Fork, application for dam and works ..n407
Flathead Lake project, two applications n447
North River, Washington, preliminary permit asked by Twin Harbor Land Co. n817
Number for year n447
Potomac River, Washington-Harpers Ferry area, private or government development and government use of power, studied n447
Saluda River development, license to Lexington Water Power Co..... n75
Savannah River, Clark Hill site, license to be asked n728
Shawano project on Wolf River, license to Wisconsin Power & Light Co.. n76
Silver Creek project, South Fork American River in California, city of Sacramento files application n817
South Branch Power Company of Philadelphia asks for Potomac River power sites n979
Warrior River, favorable report for Alabama Power Co. n817
Wolf River in Wisconsin, Indians ask permit be given Wisconsin company..n486
Potomac River power rights hearing..n407
Pumping water to reservoirs of European plants to equalize high demand and low flow. O. Reed *722
Remote control possibilities as at Glines Canyon e659
Rivers, flood crests to be studied by Federal Power Commission e167
Saluda River project, dam contract let..n321
Shawano project on Wolf River, license to Wisconsin Power & Light Co.... n76
State law control uniformity advocated in Federal Power Commission report e822, n851
States rights over power dam upheld in case of Fox River dam in Wisconsin. n30
Steel foundation for river tower of transmission line, Mississippi River Power Co. P. L. Mercer *1048
Tidal power:
Fundy Bay, New Brunswick, tidal power development on Petitcodiac River to be studied n726
Transmission lines. (See Transmission lines; Towers.)
World power conference:
Executive council passes resolution favoring interconnected power systems 1011
Meeting announced for 1931, in Germany n486

HYDRO-ELECTRIC POWER PLANTS:

Automatic plant, Glines Canyon, in operation n*118
Balch plant, arcless electric furnace heats drill steel. H. K. Fox j*234
Bellows Falls, Vt., new power plant replaces old waterwheels, New England Power Association development. e906, *908
Bristol dam on Pemigewasset River, New Hampshire, designed for later increase of height. W. D. Henderson *264
Conowingo plant:
Turbines record-breaking n*241
Draft tubes, vibrations or "thumps"..e699
Eguzon, France, hydro-electric power plant and dam e456, L. B. Desbleds..*458
Feather River project:
Construction railway has 50-deg. slope. D. McFarland j605
Menominee River plant, heavy hauling through mud and snow done by crawler tractors. N. F. Helmers ..j*72
Pumping water to reservoirs of European plants to equalize high demand and low flow. O. Reed *722
University of Iowa, central power and heating plant. B. P. Fleming *1047
Waeggital plant in Switzerland, inclined gate used for intake, designed for easy maintenance e46, E. A. Engler *60
Hydrogen-ion control of sludge digestion. G. M. Fair and C. L. Carlson 881

I

Ice, thrust of, against dams..... e742
Ice-breaker pier nose:
For Missouri River bridges *354
Railroad rail embedded in pier nose, in Pittsburgh District. J. B. Karcher 1 *522
Used by Chicago, Great Western Railroad Co. W. F. Roof 1 *934
Incineration (See Garbage and refuse disposal; Sewage disposal; Sewage treatment.)
Indexes:
Labor Statistics Bureau changes Labor Index base from 1913 to 1926.....n615
Indianapolis, Ind.:
Indictment of mayor and others e493
Mayor's conviction may halt bond sales.n727
Officials reinstated n851
Sewage and garbage engineers removed from office n815
Water treatment and water-works development e742, H. E. Jordan *762
Industrial research:
Expenditure for, amounts to $200,000,000 annually, according to National Industrial Conference Board e862, 994
Inland Waterways Corporation, capitalization, increase by government to be asked..... n728
Institution of Civil Engineers (England), medals and prizes n687
Insurance brokers in Pennsylvania must take examinations e698, H. V. Swart ..1 724
Intakes:
Newton, N. J., intake on old masonry dam still good j237
Waeggital hydro-electric plant in Switzerland, inclined gate used for intake, designed for easy maintenance e46, E. A. Engler *60
International Acetylene Association:
Meeting, annual, discusses technical problems n941
International Association of Road Congresses:
United States Congress should invite here for 1930 meeting e821
U. S. State dept. designates members..n1022
International Association of Street Sanitation Officials:
Conference, eighth to be held at Detroit, Jan. 9-10 ..... n1059
International Chamber of Commerce:
Geneva resolutions supported at Stockholm e47
Stockholm meeting:
Salter, Sir Arthur, address e140
Task for chamber is world economic recovery. E. J. Mehren 138
Trade barriers discussed, Geneva conclusions endorsed. E. J. Mehren.. n29
International Congress for Testing Materials to meet in Amsterdam n281
International Industrial Conference:
International Chamber of Commerce at Stockholm upholds Geneva resolutions e47
International trade fair announced n120
International Water Commission:
United States and Mexico, members named n360
Meeting soon n360
Interstate Commerce Commission orders hearing on railway rates for cement....n941
Interstate water compacts:
Colorado River compact:
Seven-state conference of governors adjourns to later meeting n650
Iowa, University of, central power and heating plant. B. P. Fleming *1047

IRRIGATION

Abyssinian project, dam, highway, irrigation, head of Blue Nile; White, J. G. Corporation given contract....n774
Alkali troubles, relief discussed by J. C. Marr before American Society of Agricultural Engineers 634
Canal linings:
Cement lining in irrigation canals in Imperial Valley an economic success *144
Central Park, New York, system advised for n1020
Colonization principles—new method. E. W. Smith 1 318, C. S. Jarvis 1 482
Herminghaus case returned by U. S. Supreme Court to California courts..e657
Owens Valley Irrigation District controversy, embezzlement charged....n405
Topography as basis of laying out irrigated farm units, Kittitas project. C. C. Kreutzer *276
Willwood diversion dam on Shoshone irrigation project, design features, tests, costs. I. E. Houk..... *660

J

Jacks and jacking:
Oil jacks 1½ (Blackhawk Mfg. Co.)...n*198
Welded bulldozing jack for straightening heavy structural shapes. H. Gonzer..j*932
Jadwin, Gen. Edgar:
Reports on Mississippi flood protection e946, a*961
Speaks to Mississippi Valley Association on flood control n813

Joints:
Bronze-weld, develop full strength of cast-iron pipe *880
Joists:
Truss joists made by expanding solid-web I-beam sections (Expanded Steel Truss Co.) *199

K

Kansas City, Mo.:
Gooseneck sewer, design and construction. J. F. Brown *147
Water works, progress on intakes, tunnels, pipe lines, reservoirs, for completion in 1928 .....*719

L

LABOR
Building trades department of A. F. of L.: Withdrawal from National Board for Jurisdictional Disputes, n564, e619, n815, n938
Rudolph P. Miller criticizes withdrawal n649
Building trades and jurisdictional disputes. E. Haupt .....l 934
Bureau of Labor Statistics changes index base from 1913 to 1926 .....n615
Construction camp quality prevents trouble e86
Convict labor:
California appropriation for convict highway labor n446
Compensation insurance can be collected by convict road workers in California 68
Rates and conditions throughout the country 899
Trade union membership chart, 1899-1926 434

LAND RECLAMATION
Alkali troubles, relief discussed by J. C. Marr, before American Society of Agricultural Engineers 634
Baker project to be studied by committee n117
Delhi and Durham now under new control 11
Drainage report, 13 points to be covered. A. M. Shaw 1001
Everglades drainage plan endorsed.... 187
Federal reclamation land holders repeatedly request for postponement of repayment to the government e985
Laws on reclamation, federal, book published 136, 279
Southern land reclamation—a report on possibilities and methods 217
U. S. Bureau of Reclamation conference proposes demonstration settlement of Southern reclamation projects.....n1019
Willwood diversion dam on Shoshone irrigation project, design features, tests, costs. I. E. Houk *660
Land subdivision:
Recommendations of joint committee of City Planning and Real Estate societies 23
Levees:
China, levees found to be best protection against floods on rivers similar to the Mississippi. G. W. Olivecrona.a875
Mississippi River, Mound Landing crevasse, closing of 1927. e863, W. W. De Berard *870
(See also Floods; River control and regulation; Rivers.)
Lighthouse:
Foundation of concrete caissons, Lansing Shoal Lighthouse, Lake Michigan.... 954
Lighting:
Illumination by incandescent lamps not perfected e743
Street lighting, Westinghouse Company specifications 556
Limestone, Indiana, staining, causes, prevention and removal 461
Litigation:
Expert testimony in Great Britain 477
Loaders:
Elevating loader, double hopper (George Haiss Mfg. Co.) n*34
Loading:
Tests of hollow building tile for use as footing drains 931

LOCOMOTIVES
Articulated locomotives:
Used on English railway 435
Used on Uintah Ry. *190
Baltimore & Ohio R. R., exhibit of locomotives. (See Railways, Baltimore & Ohio.)
Diesel power introduced on industrial locomotives (Plymouth Locomotives Works, Fate-Root-Heath Co.) *776
Gas-electric locomotive, 20-ton, double-truck (Davenport Locomotive Corp.).n*693
Repair shop for locomotives, Chicago, Indianapolis & Louisville Ry., building, pits, cranes *759

LOS ANGELES, CALIF.
Civic committee studies needs attending major disasters 680
Motor trucks and rail haulage compared e166, 171
Refuse incinerator design and construction *54
Union depot ordered by state railroad commission n157
Los Angeles County flood control:
Five projects, construction under way..n360
Pacoima dam, construction *168
San Gabriel River dam, high dam now planned n563
Lubrication:
Belt conveyor idler lubrication (Link-Belt Co.) n*199
Lumber:
Manufacturers start extension campaign.n566
Southern Pine End-Matched Bureau formed n160

M

McClure, Lake, named in honor of state engineer of California, W. F. McClure.. n32
McGraw-Hill Publishing Co. and A. W. Shaw Co. form subsidiary, McGraw-Shaw Co. n725

MAPS AND MAPPING
Airplane mapping:
Army airplane mapping is extensive. 313
Mississippi flood shows need for more topographic maps n240
Mississippi Valley map in single sheet..n486
Oklahoma and Texas, oil field maps.... 394

MATERIALS:
Germany to hold conference on engineering materials n563
Strength of materials, confusing teachings of text-books. D. J. Fee.....*516

METALS
Cast iron, fatigue endurance (A.S.T.M. paper). H. F. Moore and S. W. Lyon a*94
Corrosion-fatigue of non-ferrous metals (A.S.T.M. paper). D. J. McAdam, Jr..a*95
Duralumin, corrosion-fatigue (A.S.T.M. paper). R. R. Moore.....a*97
Fatigue:
American Society for Testing Materials, annual meeting papers, e86, a*94
Cast iron and car axles, fatigue studies at Illinois Experiment Station.... 228
Telephone cable lead sheaths, fatigue (A.S.T.M. paper). J. R. Townsend.a*96
Testing:
Turbine disks, steam, magnetic inspection (A.S.T.M. paper). J. A. Capp..a*24
Meters:
Hydraulic current meters, investigation needed. P. E. Hoff ..... l 28
Southern Pacific Ry. completes line to City of Mexico *1009
Michigan Engineering Conference: Third Jan. 27-28, Detroit n1022
Michigan, Lake:
Eight cities on lake must prepare sewage-treatment plans n1021
Mississippi River Commission:
Criticism of Commission by A. E. Morgan at Columbus meeting of American Society of Civil Engineers..... 641
Estimates control of floods to cost $684,000,000 .....e986, a1006
History of its work and studies of 1927 flood, outlined by Col. C. W. Kutz.. 670
Mississippi River Committees offer preliminary data on flood control n1057
Mississippi River flood control. (See Floods and flood control, Mississippi River flood.)
Mixer for mortar and plaster (Marsh-Capron Co.) n*450
Montreal, Quebec:
Expropriation of water and power plant.e330
Harbor improvements, planned.....n195
Postal terminal facilities to be expanded n978

MOTOR VEHICLES
Automobiles:
Ford and the highway e907
Buses:
New York City, bus line contracts ...n193
Regulation of interstate operation ...e578
Road structure, effect of buses e166
Trucks:
Crawler on exhibition tour (Universal Crane Co.) n*410
Number of trucks used in construction field n33
Roadbuilders' 1½-yd. truck (Indiana Truck Corp.) n*121
Road-builder's six-cylinder truck for long hauls (Indiana Truck Corp.) n*244
Six-cylinder trucks, new line (Graham Bros.-Dodge Bros.) n*410
Six-cylinder trucks, new line (Graham Bros.-Dodge Bros.) n*410
Motors:
Induction motors, ball-bearing, made of welded steel (Lincoln Electric Co.)..n*80
Self-ventilating (Fairbanks, Morse & Co.) n*895
Moving pictures:
Desert setting construction material hauled by crawler tractors with saddle blades j*478
Municipal disaster relief:
Los Angeles civic committee studies needs attending major disasters.....*680

MUNICIPAL ENGINEERING:
New York State city engineers organize association.....n484, e534, n561
St. Paul, Minn., injunction suit on naming transitman as water engineer....n651

MUNICIPAL GOVERNMENT
Bombay Presidency in India conducting training classes for municipal officials 22
Buffalo goes back to checks and balances.e414
Buffalo, N. Y., votes to abandon commission plan n358
City manager plan. (See City manager plan.)
Commission manager plan, defeated at Warren, Ohio n487
Indianapolis, Ind., indictment of mayor and others e493
St. Paul, Minn., defeat of charter amendments and public works bond issues.n483

MUNICIPAL IMPROVEMENTS
Municipal tax dollars and budgets.....e210
Paving assessments, computation plan at Lake Worth, Fla. G. Boyd.....*801
St. Paul, Minn., defeat of charter amendments and public works bond issues.n483

MUSCLE SHOALS
Muscle Shoals City power needs.....n118
Power sale to Muscle Shoals City a problem n196
Musconetcong tunnel. (See Tunnels and tunneling.)

N

Nail picker, magnetic, clears highways in Washington j*317
Nailing machines, automatic, for bridge and warehouse floors (Duplex Automatic Nailer Co.) *942
National Association of Railroad and Utilities Commissioners, meeting announced.n562
National Board for Jurisdictional Disputes:
Building Trades Department withdraws, n564, e619, n815, n938
Rudolph P. Miller criticizes withdrawal n649
Building trades and jurisdictional disputes. E. Haupt .....l 934
National Committee on Wood Utilization: Activities of, opposed by brick industry.n979
National Conference on Street and Highway safety:
City model traffic ordinance to be prepared n242
National Crushed Stone Association:
Research laboratory to be located in Washington n409
National Lumber Manufacturers Association starts extension campaign n566
National Safety Congress:
Chicago meeting discusses safety.....e577
Exhibit of safety appliances at Chicago meeting n613
National Safety Council:
Safety improvements in highway traffic discussed e534
Navigation:
Bridge underclearances required by ocean vessels' mast heights. P. K. Schuyler 993
Laboratories for the study of waterways, navigation, shipbuilding, European, revisited, e861, J. R. Freeman..... 873
Near East, travel notes. C. E. Grunsky..*261
New England flood of 1927. (See Floods and flood control.)
New England Water Works Association:
Annual meeting—a model convention, papers and business.....e453, 474, n483
Exhibitors' list n409
New Jersey Health Department staff changes n76
New Orleans, La., drainage extends suburban area, in Jefferson Drainage District *514
New York Building Congress:
"Building Industry," address. E. J. Mehren a596, e657

NEW YORK CITY
Bridges. (See Bridges.)
Bus line contracts n193
Central Park, irrigation system advised for n1020
Engineers' salaries:
American Society of Civil Engineers directs attention to New York Engineering salary inequities.....n608
Civil service examiner recommends higher pay n564
Engineering employees to seek salary increase n688
Home building on increase n983
Housing, excess condemnation plan approved in ordinance.....e165, n195
Modified plan n853
Housing bill passed by Board of Aldermen n322
Investigation of changes of misgovernment in Queens Borough e1027
Sewage works:
Board of Estimate authorizes new project n935
Queens Borough sewer construction program, huge overcharge claimed e986, n978
New York governor orders inquiry.n1021
Subways:
Brooklyn, B.-M. T. routes to cost $150,000,000, approved n196
Brooklyn subway, Jay St. contract awarded n610
Collateral replaces surety bond.....n194
Fourteenth St., eastern line, open-cut subway built under unusual conditions. G. Paaswell *269
Nassau St. subway, bids all rejected..n322
Surety bonding on New York subway contracts under fire e165
Transit:
Smith, C. E. reports on transit.....n608
Suburban transit board for New York region organized n29

*Illustrated; a, abstracts; e, editorials; j, job and office; l, letter; n, news

Untermeyer, Samuel, unified transit plan submitted n526
Makeshift directorate plan e579
Transit board altered in form e945
Water supply:
Delaware River source, plan outlined for going to Delaware for more water e210, *218
Hearing on additional supply from Delaware River and Rondout Creek n1019
New York metropolitan area, new census boundary set n979

NEW YORK PORT AUTHORITY
Bayonne-Port Richmond bridge application to War Department to be made n726
Fixes location of new Kill van Kull bridge n892
Permission asked at War Dept. hearing n939

NEW YORK STATE:
Amendments to constitution passed n814
City engineers of state organize association n484, e534, n561
Engineers, unlicensed, face legal involvement n1059
Niagara Falls and power developments, model built at University of Iowa n*242
Norman, steamer sunk in Mississippi, more damage suits n444

O

Obsolescence of buildings. (See Buildings.)
Oil burner, torch-type (Littleford Bros.) n*567

OIL FIELD ENGINEERING
California, oil production engineering, N. A. Bowers *416
Fire tests dictate change in foam fighting methods in oil fields *556
Gas lines, welded, expansion and contraction provisions in laying pipe *635
Surplus of oil production, some engineering causes e3
Town lot oil well drilling, effects 587
Water supply for El Dorado, Kans., in the oil fields. F. M. Vestch *394
Water supply of 6 m.g.d. for oil field operations in Texas Panhandle *348
Oilfield equipment:
Electric motors for drilling and pumping oil wells (Westinghouse) n653
Oil fields:
Buildings of Empire Co., made of old storage tank plates j*235
Oil reservoirs:
Coping on oil reservoir fire walls turns back boil-over wave j*849
For storing crude petroleum formed by earth dam j603
Protecting against lightning. .el, M. E. Dice *4
Oil tanks:
"Breather" roof conserves oil (Chicago Bridge & Iron Works) n*529
Concrete, for cooling water at oil field power plants j*766
Grades for storage tanks prepared under rushed conditions in Seminole field. . *58
Moving oil tanks of heavy steel in artificial canal j*682
Owens Valley water supply. (See Aqueducts; Irrigation; Water supply, Los Angeles.)

P

Patrick, Major-general M. N., chief of Army Air Corps, retired n1020

PAVEMENTS AND PAVING
Alexandria, Egypt, has extensive paving plan 224
Asphalt, new method ties base to wearing surface (Interlock Asphalt Paving Corporation) n*1024
Assessments for paving, computation plant at Lake Worth, Fla. G. Boyd. . *801
Concrete:
Circular concrete block pavement base used in London, England *552
Production and profit coincident on road work. .e862, J. L. Harrison. . *886
Rod measures paving thickness, in California. R. E. Dodge j*237
Sacramento, M. St. bridge approach on high sand fill j155

PENSTOCKS
Cover for pipe end on steep slope protects workmen inside, Feather River Power Co. j*1014
Riveted steel wye, simple design for, Feather River Power Co. O. Speir, Jr. j*1016
Steel penstock design by a graphical method. P. Bier *629
Philadelphia Engineers Club:
Celebrates fiftieth anniversary ..e985, n1021

PHILADELPHIA, PA.
Candidate for mayor advocates better salaries for engineers e493
Subway:
Heyman & Goodman get contract on section City Hall to Kater St. n282
"Pickhammer" for industrial railway track work j*685
Piers:
Grain pier, Vancouver, B. C., narrow pier built to form unit of future pier. H. W. Frith *550

PILES AND PILEDRIVING
Cutting and tenoning piles by machine designed by J. M. Wumsch j*605
Hammer, new (Vulcan Iron Works) ... n*34
Nomograph for safe load on piles ... j*848

PIPE AND PIPE LINES
Cast-iron:
Bronze-weld joint develops full strength of cast-iron pipe *880
Joint, pre-calked, improved (McWane Cast Iron Pipe Co.) n*449
Wall castings for cast-iron pipe. R. T. Regester j*1017
Cast-iron Pipe Bureau for research, not publicity n120
Cleaning of oil field pipe by rotating chains j*685
Concrete:
Moved by tractor with roller attachments j*932
Conduit Boulevard, Long Island, old masonry water conduits reinforced, cast-iron pipe removed, heavy sand fill for paving. J. Goodman 313
Electric welded pipe bid rejected by Newark, N. J. n891
Gage, self-damping, for determining heads in pipe lines. Ellis, D. S. ... j*478
Gas lines, welded, expansion and contraction provisions in laying pipe ... *635
Lime feed, intermittent, reduces incrustation from softened water, Grand Rapids, Mich. L. C. Billings j*70
Los Angeles aqueduct. (See Aqueducts.)
Lower freight rates asked by Southwestern Pipe Consumers' Committee n981
Mokelumne pipe line for East Bay water supply:
Movement in pipe during construction *184
Mississippi River crossing of gas pipe line, welding difficulties j*847
Owens Valley aqueduct:
Insurance covering damages by dynamiting e413
San Diego, Calif., pipe line laid in long sections j*603
Steel pipe contracts by sizes for 1926 .. n162
Straightening device, power operated, for pipe work in oil fields j*846
Tacoma water pipe line, pipe sections placed by traveler. W. A. Kunigk ... j*71
Threader, motion-operated, 4-in. (Oster Mfg. Co.) n*325
Wanaque aqueduct in New Jersey:
Confusion increases e249
Johnson dismissed from work n239
Johnson's enlarged plan adopted n280
Snow, F. Herbert, report on controversy e251, 274
Wood fiber, immune to corrosion and rust (Brown Co., Portland, Me.) .. n*982
Pittsburgh gas holder explosion found accidental n1059
Plasters, sound-absorbing, developed at Bureau of Standards 543
Poles:
Blasting holes in swamps for setting poles j*152

PORTLAND CEMENT ASSOCIATION
Meeting (25th), Chicago, Nov. 14-16 1927 ..... n936
President points out new markets for cement n981

PORTS AND HARBORS
Buffington, Ind., harbor, constructed ... *101
Montreal harbor improvements planned .. n195
St. Johns, N. B., plans harbor work ... n612
Vancouver, B. C., large fresh-water harbor proposed n283
Patents:
Concrete gun patent held by Concrete Mixing & Conveying Co., held invalid n854
Pratt Institute, Brooklyn, N. Y., 40 years old n523
Protecting railway improvement workmen under traffic j931
Public improvements, gain in money spent n983
Public utilities:
Montreal, expropriation of water and power plant e330
Springfield, Mass., public service association organized to promote co-operation between departments 883
State control of municipally-owned utilities e945
Water supply rates:
Middlesex Water Co., rate case, New Jersey commission's appeal sent by U. S. Supreme Court back to New Jersey Courts n726
Public works:
Coolidge, President, remarks on outlays for public works n852
Publicity on engineering work, an asset and a duty e415
Pumping stations. (See Sewage-works; Water-works.)

PUMPS AND PUMPING
Air compressor and water pump in new combined equipment (Ingersoll-Rand Co.) n*34
Centrifugal:
Compact centrifugal pump units designed in small sizes (Allis-Chalmers) 1062
New portable unit (Homelite Corp.) n*942
Pumping outfit mounted for portable use (Ralph B. Carter Co.) n*529
Steam-turbine driven, improvements since 1922 (De Laval) n121
Contractor's pump for road or well point work (C. I. Longendecker) n*778
Diaphragm for power pumps for hard service (Edson Mfg. Corp.) n80
Flushing-pump installation clears a Toronto Bay of pollution *1008
Hydraulic Society book of data on pumps n120
Self-oiling duplex and triplex pumps (Worthington Pump & Machinery Corp.) n*244
Sewage pump designed to prevent clogging (Morris Machine Works) n*818

R

Radio towers, steel, on Whittier Hotel, Detroit, welded j*403
Rail Steel Bar Association meets n730

RAILWAY ACCIDENTS
German floods cause disastrous train wreck n*158
Railway cars:
Wheel design change proposed by American Railway Association 19

RAILWAY CONSTRUCTION
Blasting railroad cuts, explosives use. . j*403
Force-account construction of Moreauville-Red Landing line of Louisville Ry. & Navigation Co. .e533, P. F. Lyons. *540
Heavy-grade 103 mile section from coast lands to interior plateau completed, So. Pacific Ry. of Mexico *1009
Logging railway for Cloquet Lumber Co., contract let n484
Throttling of railroad construction by Interstate Commerce Commission feared e658
Winter construction on railways increasing e698
Railway curves:
Resistance of freight trains determined by tests 916
Railway embankment, in England, drain driven by hydraulic thrust-boring apparatus j685

RAILWAY FINANCES
Expenditures in 1926 11
Expenditures for 1927 estimated n241
Income of railroads, pooling proposed. .e535
Railway freight terminals:
Chicago, Ill., railway freight terminal traffic and facilities 345
Train service, relation of track and coaling facilities 539
Railway location:
Avalanches compel railway relocation with tunnel in Peru 635
Railway operation:
Switch control expedites traffic on single-track railways 954
Railway rates:
I.C.C. orders hearing on rates for cement. n941
Railway rates:
Lower freight rates on pipe to Southwest asked by Southwestern Pipe Consumers' Committee n981
Railway signals and train control:
Automatic train control, safe travel, results of Commerce Commission requirements e125

RAILWAY STATIONS
Boston, North Station to be rebuilt ... n814
Canadian National Rys. plan a central passenger station in Montreal n977
Los Angeles, union depot ordered by commission n157

RAILWAY STRUCTURES
Concrete buildings and tanks on a French railway *191
Locomotive repair shop, Chicago, Indianapolis & Louisville Ry., building, pits, cranes, design *759

RAILWAY TERMINALS
Boston, North Station to be rebuilt. . n814
Cincinnati, Ohio:
Extends railroad lease for 99 years. . n816
Passenger terminal, agreement near. . n31
Union passenger and freight terminals to be built n814

RAILWAY TRACK AND TRACKWORK
Blasting railroad cuts, explosives use. . j*403
Fill work track machine (Nordberg Mfg. Co.) n33
Gyroscope used in inspection and recording of track condition on Santa Fe Ry. e415, *428
Correction and discussion of dynagraph cars l494
Laying track, Rock Island practice ... *752
Rails:
Joint designed to form hinge in wave motion 885
Street-car rails, eight standard sections. H. H. George l357
Scales, twin railway track, largest at Altoona, Pa. 560
Street railway track design and paving (Illinois Society paper by J. I. Catherwood) 102
Switch control expedites traffic on single-track railways 954
Ties:
Rails, old, use for ties experimented with by Delaware & Hudson ... e46, *53
Steel ties to be tried on Belgian railways 880
Track elevation:
Michigan Central R.R. plans elevation through Gary, Indiana n937

Chicago, Rock Island & Pacific Ry.:
Texas railroad, Amarillo to Liberal, Kan., construction *252
Consolidation:
Great Northern Pacific applies for consolidation n75
Construction railways:
Feather River hydro-electric project, construction railway has 50-deg. slope. D. McFarland j605
Delaware and Hudson R.R. experimenting with ties made from old rails..e46, *53
Electrification:
Chicago, Milwaukee & St. Paul electrification extended to Seattle....n406
France, Northern Ry., concrete buildings and tanks *191
Grand Trunk Ry. to rebuild line into Detroit n240
Great Northern Pacific applies for consolidation n75
Gulf & Ship Island R.R. Co. application for short line n117
Hudson Bay Ry.
Fort Churchill chosen terminus..... n280
Survey to new port begun..... n358
Income of railroads, pooling proposed..e535
Indian Peninsula Ry., mountain main-line revision *502
Indian railways plan 5,000 mile program n282
Logging railways:
Trestle for logging railway made of Douglas fir logs, Lewis and Clark River, Oregon j*847
Louisiana Railway & Navigation Co. cuts off long ferry transfer by new line, Moreauville to Red River Landing, built by force account..e533, P. F. Lyons *540
Michigan Central R.R. plans elevation through Gary, Indiana..... n937
Motor truck and rail haulage at Los Angeles compared e166, 171
Northern Pacific Ry., Bitter Root branch abandoned and new line built opposite side of river n115
Oklahoma to Texas railway to be built by Clinton & Oklahoma western companies n563
Peru, avalanches compel railway relocation with tunnel 635
Piedmont & Northern R.R.:
Extension unfavorably considered....n610
Link case may be throttling of construction by Interstate Commerce Commission e658
Rock Island lines, tracklaying practice. *752
Southern Pacific Ry. of Mexico, last section completed *1009
Texas oil field line of Panhandle and Santa Fe company approved..... n447
Texas, Waco, Beaumont, Trinity & Sabine Ry.:
Extension approved n240
Plans revised n193
Uintah Ry., articulated locomotives used on steep grades *190
Valuation:
I. C. C. wins support for valuation method n977

RAINFALL AND RUNOFF

Colorado River:
Easy runoff relieves flood danger in Delta n195
European capitals suffer from cloudburst rains n75
Heavy rains in Vermont again cause flood worry n977
New England flood:
Rainfall figures, isohyetal curves, comparison of 1927, with previous rainfall records. H. K. Barrows..... *796
Record rainfall and heavy damage in New England..... e741, n*770
New England rainfall records, Nov. 2-4, 1927 888
Rainfall, summer of 1927, caused floods in many countries..... e373
Roadbuilding and rain e373
Snow runoff:
Accelerated by high density, J. E. Church, Jr. 553
In Nevada 97
Western New York suffers damage through heavy rains n938
Rapid transit:
New York City. (See New York City.)
Sydney, Australia, rapid transit railway, plan, structures, tunnelling work, ... *310, *387
Refuse disposal. (See Garbage and refuse disposal.)
Rents:
Compared with 1913 levels n983
Increases in rents since 1913 in twenty cities n779

RESERVOIRS

Exchequer reservoir capacity checked by flow record. D. McFarland..... j*73
Gumbo joints in Amarillo concrete reservoir prevent leakage j*71
Leakage problem and study needed..... e658
Oil reservoirs. (See Oil reservoirs).
Overflowing reservoirs in New York and New Jersey due to rainy summer....e413
Providence, R. I., reservoirs, covered, concrete form-handling ingenious ...*838
Retaining walls:
Cahuenga Pass, arch retaining wall continues slipping. F. A. Noetzli..... 681

RIVER CONTROL AND REGULATION

Bell's bund system, used in India simplifies river control. P. Claxton..*720
Colorado River:
Levees to be raised to 4 ft. in Imperial Valley n447
Palo Verde Valley, river control by tripod dams. S. E. Webb *226
Columbia River channel widened and deepened e413, 438
Hudson River, widening in lower river subject of hearing n564
Laboratories for the study of river control and harbor works, European, revisited. e861, J. R. Freeman 873
Meanderings of alluvial rivers, as in India, governed by a fixed law. P. Claxton *268
Mississippi River:
American Society of Civil Engineers at Columbus meeting reviews Mississippi River flood problem, with address by A. E. Morgan criticizing Mississippi River Commission e618, 636, 641
Levee at Arabi, La., protected by timber bulkhead *665
Levees breached in flood, makeup of levees given in report by Colonel Potter 300
Statement about one levee breach not true. S. A. Eggleston ..... l 522
Mississippi Valley Flood Control Association asks large federal expenditures n321
Palo Verde Valley in California, on lower Colorado, river control by tripod dams. S. E. Webb *226
Spur dikes of tripods control lower Colorado River in Palo Verde Valley. S. E. Webb *226
Tripod dams. F. Y. Parker ..... l 318

RIVERS

Colorado River:
Boulder Dam project:
Doubt whether federal government should expend further effort ...e905
Hoover's influence for correct handling n407
Metropolitan Water District is proposed by Colorado Aqueduct Association n360
Nearness of agreement on utilization e290
Palo Verde Valley, river control by tripod dams. S. E. Webb *226
Salt content of Colorado River water 151
Chloride and other salts in Colorado River water. H. A. Van Norman l 607
Seven-state conference of governors adjourns to later meeting n650
Flood crests to be studied by Federal Power Commission e167
Great Basin Rivers, behavior studies by U. S. Geological Survey 627
Hudson River:
Pierhead line modification plant n444
Mississippi River:
United States Inland Waterways Corp. starts service on upper Mississippi n281
Mississippi River flood:
American Society of Civil Engineers at Columbus meeting reviews Mississippi River flood problem, with address by A. E. Morgan, critizing Mississippi River Commission e618, 636, 641
American Society of Civil Engineers plans aid in problem n648
Caernarvon crevass closed by timber piling to check flow n*688
Commission finds flood control to cost $684,000,000 ..... e986, a1006
Commission to rebuild gaps in levees.. n76
Coolidge offers solution for prevention and payment therefore e905, n935
Congressman Reid differs e905
Epidemics did not follow flood e374
Flood prevention project, Hoover's influence for correct handling n407
Hoover, Secretary, statement of progress in flood relief e127, n156
Jadwin, Gen. E., speaks to Mississippi Valley association on flood control—condemns public works in Interior Department n813
Levees breached in flood, makeup of levees given in report by Colonel Potter 300
Statement about one levee breach not true. S. A. Eggleston ..... l 522
Levees only not favored for abnormal floods, spillways needed. F. B. Maltby ..... l 686
Mississippi River Commission:
History of its work, and studies of 1927 flood, outlined by Col. C. W. Kutz 670
Report to be ready by December ...n320
Railroads' aid summarized n406
Reservoir sites, 275, listed n196
River and Harbor funds not for Mississippi repairs n157
Today in the Mississippi flood area—W. W. DeBerard:
1. Land and people of the Upper Basin e823, *828
2. Closing Mound Landing Crevasse e863, *870
3. In the mid-section of the river ..*917
4. What New Orleans thinks of flood protection *1002
5. The sugar cane industry and Atchafalaya crevasses *1043
U. S. Chamber of Commerce:
Flood control Committee proposes government financing of Mississippi River control n657, n1019
U. S. Engineers and Mississippi River Commission perfecting plans n360
Missouri Basin river flow records 553
New England river conditions during flood. (See Floods and flood control.)
Potomac River power rights hearing ...n407
St. Lawrence River:
Canada not ready to make report n156
Great Lakes Harbor Association favors international development of the St. Lawrence waterways.
Joint Board of Engineers meet in Montreal for conference n32

RIVERS AND HARBORS

Funds to go to Mississippi repairs n117
River and Harbor funds not for Mississppi repairs n157

RIVETS AND RIVETING

American Welding Society discusses welding and riveting, paper by J. Matte noted e494, n523
Hammer, riveting, with tubular main valve (Cleveland Pneumatic Tool Co.) n*325
Road shows:
All-Western road show, plans n449
Cleveland convention, Jan. 9-14, large attendance expected n1059
Roadmasters and Maintenance of Way Association, annual meeting n651
Roller, flexible, attached to tractor, moves concrete pipe j*932
Roller-bearing-equipped machines, marker for. (Hyatt Roller Bearing Co.) n*34
Roofs and trusses:
Wooden roof truss of skating rink fails under snow load. R. R. Ryan ..... l 1056
Rope:
Wire rope socketing, developments. H. C. Griswold n*528
Russian developments, iron and steel works, to be aided by American engineer n240

RUST

Liquid chemical application for combating (Rusticide Co.) n895
Safety. (See Accidents and accident prevention; Construction.)

S

ST. LOUIS, MO.

Tornado of Sept. 29 and building destruction e533, W. J. Knight *558
Water supply:
Carbon dioxide treatment of water planned. A. V. Graf 643

ST. PAUL, MINN.

Injunction suit on naming transitman as water engineer n651
Ouster suit upheld n935
Vote on relieving street railway from paving n360
Salamander, new type, operated by light furnace oil (Littleford Bros.) 1062

SAN FRANCISCO

Boulevard bonds approved n814
Garbage disposal, amendment adding more scavengers e86
Water supply:
Spring Valley purchase defeat e46
San Francisco Engineers' Club has new home n610
Sanitation:
International Association of Street Sanitation Officials conference to be held at Detroit Jan. 9-10 ..... n1059
Sargent, Paul D., resigns from Maine Highway Commission n977
Saws:
Electric handsaw, new (J. D. Wallace & Co.) n*122
New portable saw rig with tilting table top n*981
Safety guard on electric hand saw (Lyntrom Co.) n*80
Scales (weight):
Dial scale, electric (Standard Scale & Supply Co.) n*488
Scoop, skimmer, new (Speeder Machinery Corp.) n*819
Seismology:
Data for engineer through improved seismology. J. R. Freeman 174

SEWAGE DISPOSAL

Alton, Ill., sink hole topography for sewage disposal. J. E. Lamar *642
Incineration:
Screenings burned, experience at Long Beach disposal plant. R. A. Appleton *500

Long Beach, Calif., sewage burning plant, fuel cost, corrected statement 57
Melbourne, Australia, sewage form 669
Sink hole topography study for sewage disposal at Alton, Ill. J. E. Lamar..*642
Study of sewage settling tank design. Reply to article by Chas. H. Capen, Jr., printed April 28, 1927, page 693. F. E. Daniels, H. L. Thackwell and Chas. H. Capen, Jr. l1054

SEWAGE TREATMENT

Activated sludge process:
Air diffusion, advantage over mechanical agitation *922
Essen, Germany, activated sludge plant, operating results. K. Imhoff, trans. G. M. Fair *790
Plates in air diffusers, permeability studied. W. L. Howe *18
Chlorination:
Effect of chlorination upon the digestion of sewage solids. G. M. Fair and C. L. Carlson 1030
Odor control by chlorination at Independence, Kan. G. H. Hackmaster 1031
Schenectady article of 1925 aids Singapore chlorination. e209. A. G. Harrington and C. E. Whitaker ..... l 238
Schenectady sewage chlorination studies, 1926-27. e209, M. M. Cohn 229
Screened sewage chlorination at Bridgeport, Conn. W. J. Scott and C. L. Pool 1033
Singapore chlorination aided by Schenectady article in 1925. e209.. A. G. Harrington and C. E. Whitaker l 238
Incineration:
Screenings burned, experience at Long Beach disposal plant. R. A. Appleton *500
Lake Michigan cities report progress in reduction of water pollution by better sewage treatment n609
Lake Michigan, eight cities on, must prepare sewage-treatment plans n1021
Pontiac, Mich., operation of sewage-works. K. R. Pollock *434
Settling tank design, flow theory and comparisons of design at four New Jersey sewage-works. e821, C. H. Capen, Jr. *833
Singapore. (See Sewage treatment, chlorination.)
Sludge digestion:
Hydrogen-ion control of. G. M. Fair and C. L. Carlson 881
Steam pollution and industrial wastes in Wisconsin, report by State Board of Health 664

SEWAGE-WORKS

Akron, Ohio, sewage-works construction on large scale e783. *784
Alliance, Ohio, sewage-works plan approved n852
Aurora, Ill., votes million for sewage disposal n612
Binghamton, N. Y., sewage-works includs summer activation n29
Dayton, Ohio, sewage-works plan approved n852
Detroit starts to acquire site for sewage works n892
Progress on large sewerage program *959
Essen Germany, plants for activated sludge process, operating results. K. Imhoff, trans. G. M. Fair *790
Milwaukee, Wis.:
Conditions and processes, paper to Lake Michigan Sanitation congress. R. Cramer a751
New York City:
New sewage treatment plant on Ward's Island authorized n935
Queens Borough, hugh overcharge claimed in $16,000,000 program e986, n978
New York governor orders inquiry n1021
Operation:
Sewage-works operators of Pennsylvania meet with water-works operators n156
Pontiac, Mich., operation of sewage-works. J. R. Pollock *434
Pumping stations:
Watertight underground pumping station protects electrical equipment. (Yeomans Brothers Co.) n*161
Santa Monica, Calif., sewage pumping plant 107
Screens:
Pipe, galvanized, substituted for rods in sewage screens, Sacramento sewage pumping plants j*155
Settling tank design, flow theory and comparisons of design at four New Jersey sewage-works. e821, C. H. Capen, Jr. *833
Three short courses for operators..... n1058

SEWER CONSTRUCTION

Chicago, Clifton Ave., sewer tunnel driven with drainage by well points .j769
Gooseneck sewer, Kansas City, Mo., sanitary sewer bracketed to storm sewer. J. F. Brown *765
Lining:
Sulphur compound used to point tile liners in sewers of Los Angeles county sanitation districts ..e330, *346
North Chicago district sewer flow bypassed while connecting cast-iron and concrete sewer. J. W. Nemoyer j*682
Quicksand tunneling and deep cuts in caving ground chief difficulties of large intercepter *996
St. Paul, Minn., tunneling by day labor on belt line sewer. W. N. Carey *709
Sewer design:
Gooseneck sewer, Kansas City, Mo., sanitary sewer bracketed to storm sewer. Brown, J. F. *765
Design and construction. J. F. Brown *147
Lining:
Sulphur compound to point tile liners in sewers of Los Angeles county sanitation districts e330, *346
Ocean outfall sewers, six designs submitted in California e290, *254
Sewerage:
Canberra, Australian capital, water supply and sewerage *386
Manila., P. I., sewer service charged for on metered water consumption basis. A. Gideon l404

SEWERS

Filling small sewer in London with cement, found cheaper than removing it j*401
Gooseneck sewer in Kansas City:
Design and construction. J. F. Brown. *147
Sanitary sewer bracketed to storm sewer. J. F. Brown *765
Los Angeles county sanitation districts, sewer tile liners pointed with sulphur compound e330, *346
Ocean outfall sewers, six designs submitted in California. e290, *254
Springfield, Ill., 17-mile-belt-line sewer *906
Storm sewer need solved by concrete box built under pavement edge, North Platte, Neb. C. J. McNamara j*684
Stub connections in sewers, locating, Milwaukee method. W. F. Terry j*73
Wood-stave outfall sewer at El Paso replaced with concrete. R. P. Anderson *175
Discussion. H. D. Coale and R. P. Anderson. l442, W. C. Hammatt..... l686
Ships:
Mast heights and drafts of ocean vessels, data for determining bridge clearance. P. K. Schuyler 993
Shore erosion and protection:
Florida hurricane lessons as to groins and seawalls. R. M. Miller *15
Laboratories for study of shore line control, European, revisited. e861, J. R. Freeman 873

SHOVELS

Bearings and single line hoist new feature (Ohio Power Shovel Co.) n1023
Diesel engine for 1½ yard shovel (Bucyrus Co.) n*161
Power shovel, ½ yd. (Harnischfeger Corp.) n*362
Pull shovel features control of dipper angle (Thew Shovel Co.) n*567
Rating on new shovel based on dipper stick length (Koehring Co.) n*33
Scoop, skinner, new (Speeder Machinery Corp.) n*819
Shovel-crane designed with few parts (American Hoist & Derrick Co.) n*730
Sleeper-spacing anchor. (See Building design; Structural steel.)

SNOW AND SNOW REMOVAL

Bureau of Snow Control organized by manufacturers of equipment used in this work 913
Loader, for hard service (Fox Rotary Snow Broom Co.) n*284
Melting and runoff of snow accelerated by high density. J. E. Church, Jr... 553
Michigan state highway department snow removal, determining requirements, and methods and equipment e250, e290, V. R. Burton *256, *302
Snow plows:
Blower type snow plow built as complete truck unit (Klauer Mfg. Co.) .n*776
Test method for snow weights. R. R. Ryan j1014
Society for Promotion of Engineering Education:
Annual meeting, at Orono, Me. n77
Sound:
Transmission of, prevented by equipment installed by U. S. Gypsum Co. n981
Sounding machine in hydrographic surveys in Mississippi River. E. W. Lane j*400
Southern Appalachian Power Conference meeting announced n483
Speed reducer:
Built around herringbone gears (Link-Belt Co.) n*489
Mounted in oil-tight bearing (Stephens-Adamson Manufacturing Co.) n*244
Worm gear, built for long life (D. O. James Mfg. Co.) n*653
Spillways. (See Dams.)
Splice failure in a wooden truss. 805. D. M. McCain ..... l 975
Standardization:
American Engineering Standards Committee may reorganize as American Standards Association. e291
U. S. Bureau of Standards reorganization, the government in standardization e578
Steam power:
Central power and heating plant for University of Iowa. B. P. Fleming *1047
Generator, 160,000 kw., New York Edison 14th St. plant (from General Electric Co.) n161
Richmond power station, Philadelphia, foundation built in wet ground..... 511

STEEL

British research on iron and steel 764
Plastic flow and strength of cold-worked steel. E. B. Morris *548
Publicity on steel, and quality versus volume, discussion by American Institute of Steel Construction e697, 716
Sulphur effect on plate steel (A.S.T.M. paper). *26
Stone:
Preservation of stone, English research.. 510
Research laboratory for crushed stone..n409
Stone work, steam cleaning j152
Strain gages:
Carbon-resistance strain gage development (A.S.T. paper). O. S. Peters a*25
New lever-type extensometer has wide application n*982
Street railway rails. (See Railway track and trackwork).

STREETS

Lighting of streets:
Westinghouse company specifications . 556
Pedestrian tunnels at Highland Park, Mich. e578
Sanitation of streets, costs in nine cities given in Cincinnati report 336
Sidewalks obstructed by ornamental light posts. e658

STRESSES:

Brass wire models used in applying the Beggs mechanical method of stress analysis, deflections measured with ordinary scale. Anders Bull *920
Skew arch reactions measured by reciprocal method (studies by Prof. G. E. Beggs). *106
Steel:
Plastic flow and strength of cold-worked steel. E. B. Norris *548
Strength of materials, confusing teachings of text-books. D. J. Fee *516
Structural steel:
Sleeper-spacing anchors (Union Steel Products Co.) n*80
Submarines:
Attempts continue to get lines under sunken S-4 ..... n1059
Sinking of S-4 ..... e1027

SURVEYS AND SURVEYING

Aerial survey of Rio Grande is started.n115
Monuments, standard, for harbor line work in Cincinnati engineer district. C. E. Hammell *170
Sounding machine used in hydrographic surveys in Mississippi River. E. W. Lane j*400
Tapes:
Constructing 100-ft. standard for checking steel tapes. J. E. Earl ..j1015
Switch control expedites traffic on single-track railways 954
Sydney, Australia, rapid transit railway, plan, structures, tunneling work. *310, *387

T

TANKS

Dipping tank, seepage water removal during construction. R. D. Stephens j*72
Moving oil tanks of heavy steel in artificial canal j*682
Oil field tanks of concrete for cooling water at power plants j*766
Oil storage tank grades prepared under rushed conditions in Seminole field.. *58
Oil tank "breather roof" conserves oil (Chicago Bridge & Iron Works). ..n*529
Tape, steel, hook permits one-man operation (Lufkin Rule Co.) *777
Tapes, steel, constructing 100-ft. standard for checking. J. E. Earl j1015
Taxation:
Gasoline taxes grow e209
Taylor, Gen. Harry, to study Georgia-Florida inland waterway n977
Telephone Company, New Jersey, book cost valuation and state control e249
Testing machine of large size installed at Pittsburgh Testing Laboratory..... n*777
Tile:
Hollow building, for use as footing drains, load tests made j931
Load-bearing tile for light-occupancy construction, structolite (U. S. Gypsum Co.) n693
Tornadoes:
St. Louis, Mo., tornado and building destruction e 533. W. J. Knight *558
Toronto bay cleared of pollution by a flushing-pump installation *1008
Towers:
For oil field plant, weighing 62 tons, delivered on truck over country road. j*481
Steel foundation for river tower of transmission line. P. L. Mercer *1048
Transmission tower of suspension type for Conowingo power, tests *792
Township zoning case to be carried to U. S. Court. n725

TRACTORS

Compacts, comfortable industrial tractor (J. I. Case Threshing Machine Co.).n*777
Concrete pipe moved by crawler tractor with roller attachment j*932
Diesel engines installed on crawler tractors (Atlas-Imperial Engine Co.)....n*818
Draw-bar pull increased and higher speed in new tractor (Cleveland Tractor Co.) n*614
Dump tractor handles easily (Hughes-Keenan Co.) n*34
Heavy industrial tractor equipped with rubber tires (Huber Manufacturing Co.) n*244
J. T. model 45 simplified n*161
Motor grader attachment for 2-ton caterpillar tractor (Austin-Western Road Machinery Co.) n*33

Moving picture desert scene material hauled by crawler tractors with paddle blades j*478
New front blade back filler for attachment to the model 20-K Cletrac tractor (Miami Trailer-Scraper Co.) ..n*1024
Trade unions:
Membership chart, 1899 434

TRAFFIC AND TRAFFIC REGULATION

Buses. (See Motor vehicles.)
Chicago commission n1059
City model traffic ordinance to be prepared by Conference on Street and Highway Safety n242
Crosstown problem e861
Parking in the business district prohibited by Chicago City Council n1058
Prize competition to promote traffic safety sponsored by American Road Builders' Association n445
Trailers. (See also Tractors.)
All-steel, four-wheel, bottom-dump trailer (Miami Trailer Scraper Co.) n*682
Tank trailers used for hauling bituminous materials for use on highway construction j*930
Trailer, 20-ton, rented by Delaware highway department to contractors. C. D. Buck j*234
Transit:
Communication and transit, international conference at Geneva n358
Transmission lines:
Steel foundation for river tower of transmission line. P. L. Mercer *1048
Tower of suspension type for Conowingo power, tested *795
Transportation:
Incomes from rail and water transportation 177
Motor truck and rail haulage at Los Angeles compared e166, 171
United States Inland Waterways Corp. starts service on upper Mississippi n281
Travel notes:
Greece, an engineer's comments. C. E. Grunsky 390
Near East notes. C. E. Grunsky *261
Traveler used to place pipe sections in Tacoma water line. W. A. Kunigk j*71
Trenching. (See Excavation.)
Trestles:
Highway trestle, Santa Maria, Calif., in genious concreting plant layout j*70
Logging trestle, temporary, made of Douglas fir logs, Lewis and Clark River, Oregon j*847

TRUSSES

Joists, truss, made of expanded I-beam (Expanded Steel Truss Co.) n*199
Portland, Ore., building failure due to splice of wooden truss *805
Welded roof truss tested by American Bridge Co. for General Electric Co. n*1020
Wooden roof truss of skating rink fails under snow load. R. R. Ryan ..... l 1056
Wooden, splice failure in. D. M. McCain ..... l 975

TUNNELS AND TUNNELING

Argentine tunnel, at Mendota, for water supply, bids n530
Ben Nevis Mountain in Great Britain, water tunnel 16 miles long for power plant 795
Big Bend tunnel, inquiry if steel drill was used. G. B. Johnson ..... l 102
Boston water supply tunnel, Wachusett-Coldbrook, bids asked n728
Bridge river power tunnel contract let to Vancouver firm n689
British Columbia tunnel contract noteworthy e782
Cascade Mountains tunnel:
For highway and railway traffic, 29 miles, proposed route near Great Northern tunnel. F. W. Harris *715
Progress to June, 1927 ..... *224
Detroit-Windsor vehicular tunnel, first steps taken in building tunnel n281
Approved by Detroit electors n892
Diameters of subaqueous tunnels, including Holland tunnel 68
Drills, four, developed for tunneling and quarrying (Sullivan Machinery Co.) n*730
Fire test in Holland tunnel e742, n774
Holland vehicular tunnel:
Diameters of subaqueous tunnels, correction 68
Engineers' celebration at opening of tunnel e781, n813
Fire test e742, n774
Founder societies present tunnel commission with appreciative resolution n*976
Opening to traffic, an engineers' celebration and one of the traffic marvels e781, n813, n*815
Operation or traffic regulation at entrances and exits and in tunnels, fire protection e697, *700
Toll rates fixed n725
Vehicle count for first day n*815
Methods in plastic clay at Detroit e945, *948
Moffat tunnel:
Completed n1021
Cost to date n194
Gutter construction in Moffat tunnel. j*683
Holed through July 7 ..... n75
Lining, of steel, is of heavy design. j*236
New feature of Lewis traveling girder speeds tunnel driving j*933
Progress to Sept. 15 ..... n565
Record in east portal enlargement n486
Ventilation experiments, as basis for design of plant for removing gas and smoke. e947, G. E. McElroy and G. A. Betts *956
Musconetcong tunnel:
Methods and machinery now and fifty years ago compared, on parallel tunnels in New Jersey. e986, *988, e1028, 1036
Oakland estuary tube:
Last of 12 segments in place n725
Sections, ten of twelve in place n405
Pedestrian tunnels at Highland Park, Mich. e578
Quicksand tunneling for intercepting sewer system, Springfield, Ill. ..e986, *996
St. Paul, Minn., tunneling by day labor on belt line sewer. W. N. Carey *709
Sewer tunnel, Chicago, Clifton Ave., driven with drainage by well points. j769

TURBINES:

Conowingo turbines record-breaking n*241
Direct connected turbine-generator unit (Westinghouse El. & Manuf. Co.) ..n*895
Efficiency 94 per cent at Melones plant on Stanislaus River *628

TYPHOID FEVER

California's record for 1926, "may point with pride" e125
Cross-connections:
Held responsible for three outbreaks, Albany, Cohoes and Oswego, N. Y. n852
New Jersey may prohibit cross-connections e289, n321
Montreal epidemic:
Blame not fixed, investigation smothered e619, 636
Cases total about 5,050, deaths 500. n485
Decline continues n117
Rise and fall of epidemic e47, n76
U. S. Public Health Service:
Report e87, *108
Study and report e47, n76, *108
Secrecy on press reports of typhoid as cause of death e374
Vermont, no cases after flood in November n977
Watseka, Ill., typhoid outbreak 53

U

U. S. Bureau of Reclamation:
Proposes demonstration settlement of Southern reclamation projects n1019

U. S. BUREAU OF STANDARDS

Concrete aggregate durability tests 183
Reorganization e578
Tests:
Fire resistance of brick walls, tests of several years 628
U. S. Chamber of Commerce:
Flood control committee proposes government financing of Mississippi River control e657
Meeting at West Baden took up flood control, tax reduction, civic matters. n648

U. S. GOVERNMENT

Public Works Department:
American Engineering Council drafts bill putting public works under Interior Department n687
Bill to be revised n853
Jadwin, Gen. E., condemns public works in Interior Department n813
U. S. Navy:
S-4, attempts continue to get lines under n1059

V

Valuation:
Book cost, not reproduction-cost-new to be used in valuation of New Jersey telephone company e249
Denver, Colo., revaluation of buildings for tax assessments. W. L. Prouty. *387
Ventilation:
In tunnels. (See Tunnels & tunneling.)
Wisconsin University and heating and ventilating society co-operate on air infiltration studies 761
Venturi meters:
Direct-acting Venturi controller for filter plants (Builders Iron Foundry) n*614
Small and large meter in series to increase range of metering station, water supply conduit, Munich, Bavaria *966
Viaducts:
Columbus, Ohio, High St., viaduct of steel to be reinforced by encasement. R. H. Simpson 791
Longview, Wash., railroad viaduct over highway in service 8 days after pouring concrete j*155
Vulcanite Portland Cement Co., makers of super cement, host to eastern engineers n563

W

Wall castings for cast-iron pipe. R. T. Regester j*1017

WALLS

Brick, data on hollow and solid walls 353
Brick walls, fire resistance tests several years at Bureau of Standards 628
Wingwall at Indianapolis falls, concrete defective *380
Water compacts, international. (See International water compacts.)
Water consumption:
Scotch district water regulations and rates 100

WATER MAINS

Cross-connections:
New Jersey may prohibit cross-connections e289, n321
Lime feed, intermittent, reduces incrustation from softened water, Grand Rapids, Mich. L. C. Billings j*70
Pipe, different materials, effect on quality of water. H. W. Clark a599
Services and mains, protecting from freezing, described by S. D. Bleich. j766
Tacoma water pipe line, pipe sections placed by traveler. W. A. Kunigk. j*71

WATER METERS

Chicago, Ill., water meter controversy:
Abandonment of meters favored, but War Department opposes change of plan n358
Laxity in installing meters scored by Chief of Engineers e413, n444
Reading of small meters stopped n564
Urged meters twenty years ago—quotation from *Engineering News*-W. L. Swanton ..... l 404
Waste survey to supplement and supplant meters, ordinance. n157, e166, 263
Two Venturi meters in series to increase range of station, water supply conduit, Munich, Bavaria *966

WATER POLLUTION

Flushing-pump installation clears a Toronto bay of pollution *1008
Lake Michigan cities report progress in reduction of water pollution by better sewage treatment n609
Wisconsin State Board of Health discusses stream pollution and industrial wastes 664
Water power:
Colorado River, no agreement reached on price of power n1057
Water resources survey bill before Congress n1058
Water rights:
Herminghaus case returned by U. S. Supreme Court to California courts. e657
Owens Valley water. (See Water supply, Los Angeles.)
User has prior right to water in underground stream regardless of inability to locate its boundaries, Arizona court decides 926

WATER SUPPLY

Albany, N. Y.
Plan on which hearing was held was report of R. E. Horton, not Fuller & McClintock n329
Stage one of plant approved by state commission n649
Water supply increase hearings concluded n243
Argentine, city of Mendota, water supply tunnel, bids n530
Boston water supply tunnel, Wachusett-Coldbrook, bids asked n728
Canberra, Australian capital, water supply and sewerage *386
Chimney Rock project for water for Elizabeth and Newark, N. J., may be started soon n323
Church community near Kansas City, water supply and dam construction. C. F. Lambert *399
Colorado River:
Metropolitan Water District is proposed by Colorado Aqueduct Association n360
Detroit:
Tunneling methods in plastic clay e945, *948
East Bay District, Mokelumne project:
Distribution system; for water supply, bonds voted n774, e781
Mokelumne pipe line, movement in pipe during construction *184
Georgia has 90 certified water supplies 272
Ground water in New Mexico now, subject to appropriation 395
Los Angeles:
Owens Valley:
Five banks close in water rights dispute n240
Test case proposed to solve reparation issue n483
Los Angeles aqueduct. (See Aqueducts.)
Mokelumne project. (See Water supply, East Bay District.)
New England, emergency water supply in flood area, chlorinating apparatus and supplies rushed to prevent epidemics 889
New York City:
Delaware River source, plan outlined for going to Delaware for more water e210, *218
Hearing on additional supply from Delaware River and Rondout Creek n1019
Oil field, Eldorado, Kan., municipal water supply problem. F. M. Veatch *394
Oil field operation water supply of 6 m.g.d. developed in Texas Panhandle *348
Ordinance, Fremont, Ohio, for emergency water supply must stand 384
Owens Valley controversy. (See Water supply, Los Angeles.)
Pipe, different materials, effect on quality of water. H. W. Clark a599
Rates:
Middlesex Water Co. rate case, New Jersey commission's appeal sent by U. S. Supreme Court back to New Jersey courts n726
Sacramento, Calif., water supply bond issue defeated n562
San Francisco:
Spring Valley purchase defeat e46
Seattle, Wash.:
Diablo dam on Skagit project, specifications ready n241

*Illustrated; a, abstracts; e, editorials; j, job and office; l, letter; n, news

WATER TREATMENT

Aeration:
Filters, mechanical, controlled by effluent aerators utilizing head between filters and clear well at Providence, West Palm Beach, Poughkeepsie, and Rahway. e373, M. Pirnie *376
Carbon dioxide treatment at St. Louis, Mo., water-works. A. V. Graf..... 643
Chile, water treatments in cities, progress 233
Chlorination:
Chlorinator, parts simplified (Paradon Mfg. Co.) n*363
Emergency water supply relief in New England's flood area 889
Development of water treatment in United States illustrated at Indianapolis. e742, H. E. Jordan.....*762
Filtration:
Aerators, effluent, control mechanical filters at Providence, West Palm Beach, Poughkeepsie and Rahway by using head between filter and clear well. e373, M. Pirnie.....*376
English filter plant recovers wash water wasted 93
Indianapolis, Ind., development of filtration and plant methods. e742, H. E. Jordan *762
Progress in water treatment illustrated at Indianapolis. e742, H. E. Jordan *762
Sludge returned speeds water softening, at Pittsburgh 748
Softening:
Chemical dosing of hard and turbid water by new mechanical mixer (Dorr Co.) *857
Sludge returned speeds water softening, at Pittsburgh 748

WATER-WORKS

Administration problems of larger and joint water-works and systems.....e374
Amarillo, Texas, reservoir, packed gumbo joints in concrete prevent leakage...j*71
Consolidation of four water companies in Pennsylvania refused e456, n485
Filters:
Bottom, new type installed at Pittsburgh (F. B. Leopold Co.) n*121
Indianapolis, Ind., filters and other works, development typical. e742, H. E. Jordan *762
Kansas City, Mo., progress on intakes, tunnels, pipe lines, reservoirs, for completion in 1928 .....*719
Montreal council returns water-works plant to water company.....n115
Montreal, expropriation of water and power plant e330
Operation:
Filter plant operators in Pennsylvania meet with sewage-works operators n156
Pennsylvania, consolidation of four water companies refused e456, n485
Providence, R. I., aerators, effluent, control mechanical filters. e373, M. Pirnie *376
San Diego, Calif., pipe line laid in long sections j*603
Services and mains, protecting from freezing, described by S. D. Bleich....j766
Settling basin for water-works of Lawrence, Kan. W. Kiersted *65
West Palm Beach, Fla., aerators, effluent, control mechanical filters. e373, M. Pirnie *376
Waterproofing a cellar. F. E. Barnes ..j*1015

WATERWAYS

Congress power over navigable water declared absolute n193
Great Lakes to Ocean waterway:
International development of St. Lawrence River favored by Great Lakes Harbor Association n979
Illinois waterway:
Land purchases approved n483
Water rights bought by state from insull to promote Lakes-to-gulf waterway n446
Inland Waterways Corporation, capitalization increase to be asked.....n728
United States Inland Waterways Corp., starts service on upper Mississippi ...n281
Weighing:
Dial scale, electric (Standard Scale & Supply Co.) n*488

WELDING

Aluminum, welding information, from *Oxy-Acetylene Tips* 519
American Welding Society discusses welding and riveting, paper by J. Matte noted e494, n523
Arc welding used on one-story building two acres in area, continuous purlin detail and field welding effect savings. G. D. Fish *1041
Bulldozing jack made at small expense. H. Gonzer j*932
Chicopee Falls railway bridge on Boston & Maine branch, arc-welded n689
Conference, third annual, Purdue University, Dec. 13-15, 1927 .....n894
Costs of welding on Westinghouse building at Sharon, Pa. 469
Crane, traveling, fabricated by arc-welding (Cleveland Crane & Engineering Co.) n*409
Drum of steel with welded seams withstands heavy pressure, tests by Petroleum Iron Works Co., and Penstock Construction Co. j*153
Fillet arc-weld tests made by Gen. Electric Co. *960
Girder, welded, in Paris building..... 4
Hydrogen, atomic, welding equipment (General Electric Co.) n*284
Maintenance in steel work done by welding, described by Westinghouse engineer 758
Meeting of Affiliated Technical Societies of Boston, papers on welding n1021
Melbourne, Australia, gas plant welding 589
Mississippi River crossing of gas pipe line, welding difficulties.....j*847
Missouri River bridge, at Leavenworth, of Chicago, Great Western Ry., strengthened by welding. W. R. Roof *176
Pipe, electric welded, bid on rejected by Newark, N. J. n891
Pipe lines, bronze-welded cast-iron, strain control methods j402
Pipe joints, bronze-weld, develop full strength of cast-iron pipe.....*880
Radio towers, steel, on Whittier Hotel, Detroit, welded j*403
Roof truss, tested for General Electric Co. n*1020
Testing welds under field conditions, bending and tensile tests, from *Oxy-Acetylene Tips* 800
Well-point drainage at Lynn, Mass. compared with European methods n*1013
Wells and well drilling:
Current meters:
Au deep-well current meter for locating leaks. A. G. Fiedler *382
Winch on truck used in driving well casing. W. E. Clark j*236
Western Society of Engineers:
Meeting, Dec. 12, papers on the topographic mapping of the U. S. n1022
Putnam, President, advocates co-operation of engineering organizations...e165
Wheels:
Extension wheels, steel, rubber-tired (French & Hecht) n*489
Steel-web wheel and tractor wheel (Whitehead & Kales Co.) n*488
White House roof enclosed during repair and addition to building j479
Wicksteed, H. K., death n193
Wight, F. C., editor of *Engineering News-Record*, death *453, e455, 520

WIND

Bracing for wind action:
Welded bracing connection, combined with riveting, tested by Detroit committee. W. A. Hakin and R. G. Richards *752
Connections for wind stresses in design of tier buildings. W. H. Weiskopf *396
Velocities of wind records in United States. P. K. Schuyler *352
Wires:
Tie wires in concreting, used at Exchequer Dam. D. MacFarland j*480
Wood:
Increased use, campaign for, objected to by brick industry n979
Wood preservation:
Preservative, Ac-Zol, used in Europe, introduced in America (Zinsser & Co.) n*730
Wolman process preservative (American Lumber & Treating Corp.) n*857
Wood, use in construction. (See Construction, wood.)
World Engineering Congress to be held in Tokyo in 1927, American engineers urged to help n610
Meeting announced n486
World Power Conference:
Executive council passes resolution favoring interconnected power system 1011
Wrecked vessel dynamited into hole to protect navigation. W. B. Smith j*931
Wye, riveted steel, for penstock, simple design. O. Speir, jr. j*1016

AUTHORS' INDEX

Ajwani, H. J.: Am. Soc. C. E.—Ages and foreign members .....l 850
Ames, L. R.: Fast force-account road building in North Carolina.....*831
